e. Morale and Welfare

(1) The overall morale of the Battalion is considered to be excellent. In addition to the recreation and rest programs available to all Marines in Vietnam, the Battalion maintains an enlisted club with a large outdoor theatre which hosts frequent USO shows. High on the list of favorite pastimes is an outstanding beach with facilities for cookouts. The Special Services program is active providing nightly movies, a weight room, a reading room and equipment for sporting activities. The PX facilities include a Marine Corps exchange, laundry, photo and gift shops. This cantonment has a messhall which efficiently feeds 600 men three hot meals daily.

(2) The morale in the field is also considered excellent. Each Company has recently completed 48 hours at "Stack Arms" R&R Center. In addition, the Battalion employs a standdown program whereby a platoon can periodically spend one full day in the Battalion Cantonment and utilizing the Battalion beach area, post exchange and R&R calls facilities.

**PART II
SECTION B
ENEMY, WEATHER AND TERRAIN**

1. Enemy. Enemy initiated activity was concentrated in the first third of the month. During the entire reporting period, there were seventeen exchanges of fire, of which six were nighttime harassment maneuvers initiated by the enemy. Five of these occurred on or before the 11th of the month. There were no daytime incidents initiated by the enemy.

a. The only mortar attack occurred shortly after midnight on the 4th and consisted of 10-12 82mm rounds fired at MAG-16. The only significant incident occurring in the latter part of the month was a rocket firing, again shortly after midnight, of 10-12 rockets on the 20th. This incident took place at peak lunar illumination and perhaps shows that the enemy is willing to risk movement under this condition rather than have to cope with increased patrolling and security measures initiated by ~~FWO~~ during "high threat" periods which generally coincide with low lunar illumination.

b. In general, enemy activity has shown a decrease for each of the last several reporting periods. This may be because the enemy believes his efforts will be more fruitful during and after the anticipated Marine withdrawal. Also, he may be affected by the recent operations in Cambodia which means that he may have to make present munitions and stores last longer than originally anticipated. The finding of 57 82mm rounds by CIT on the 2d of the month has further depleted his ready munitions supply.

c. Finally, the VIP Fund Program in which Vietnamese civilians turn in ordnance and enemy weaponry to Marine units, has been a tremendous success in the TAOR. During the past month, a total of \$105,500 VN-piasters have been paid out for ordnance. Selected items turned in as follows; 44 M-26's, 69 Chi-com grenades, 11 containers filled with C-4, 44 105mm HE rounds, 13 81mm HE rounds, 19 60mm HE rounds, 35 M-79 rounds, 04 Claymores, 10 Toe Poppers, 11 homemade mines with electrical blasting caps, 1 concussion grenade, 1 pressure type booby trap and 13 holl boxes.

4. Weather and Terrain

a. Weather. The average high temperature was 94 degrees and the average low temperature was 76 degrees, with the average humidity being 77%. The weather in the latter part of the month was characterized by heavy showers in the late afternoon and early evening resulting in a total rainfall of 4.73 inches.

b. Terrain. The terrain in the 2d Battalion, 1st Marines TAOR is flat and sandy, with rice paddies and scattered broken treelines. There are two main water transportation routes, the Vinh Dien River in the east and the Yen River in the west. In addition, there are numerous lakes and ponds and paddies where boat traffic is heavy.

Allied observation of possible enemy infiltration routes is excellent due to land clearing and flat, open paddy areas in approximately 60% of the TAOR. However, the vegetation has grown back in many of the land cleared areas and is providing more cover and concealment for the enemy. The other 40% of the area, particularly in the western TAOR, offers considerable concealment due to thick vegetation and treelines.

SECTION C
OPERATIONS.

1. Operations

a. Mission. The 2d Battalion, 1st Marines was assigned the mission to:

- (1) Conduct unilateral, joint and combined offensive operations to locate and destroy enemy forces and logistic installations.
- (2) To locate and destroy enemy bases within the TAOR which pose a threat to GVN control of important population and economic centers.
- (3) To deploy forces throughout the assigned TAOR and to provide defense of the Da Nang vital area and military complex, with emphasis on routes of approach to probable rocket/mortar launch positions, to include waterways.

b. Operations

(1) The overall concept of operations within the TAOR is for three rifle companies to conduct saturation patrol/ambush activity within their respective areas of operation, while the remaining rifle company conducts mobile operations within the Battalion TAOR.

(2) During June, the concept of daytime operations changed significantly as the Battalion initiated the use of observation posts manned by rifle squads and sniper teams on significant pieces of terrain throughout the TAOR. This change not only increased cognizance of many densely vegetated areas but also decreased the number of Marine booby trap casualties.

(3) Local operations were characterized by continued close cooperation and liaison with Vietnamese Military and Civilian Officials who supply information of Viet Cong activity. This information coupled with extensive usage of aerial observers (AO) communicating with maneuver forces on the ground, produced significant results.

(4) On 3 June, the Battalion assumed OPCON of Company "I" 3rd Battalion, 7th Marines for the duration of the high threat period. On 8 June, Company "I" was released from OPCON of 2d Battalion and returned to their parent unit.

(5) Consistent with the Battalion mission, Recon Divers were used twice during the month to search the banks of the Vinh Dien River within the Battalion's TAOR and also to search various lakes within the Eastern portion of the TAOR. On the latter occasion, PBR's were used in conjunction with the divers to facilitate security and movement along the river.

(6) On 6 June, Company "H" (-) participated in a combined cordon and sweep operation with the 592nd RF Company, 59th RF Battalion in the Phong Lo (1) area (A994698) resulting in two detainees and numerous documents captured.

(7) Beginning on 11 June, the rifle companies of the Battalion attended Stack Arms completing the cycle on 22 June. During this period the TLOP was successfully maintained with the three remaining rifle companies.

(8) On 15 June, a two day combined operation with the 5th Battalion, 2nd ROKMC Brigade and Company "F" (-) was initiated along the common ROK/USMC border. Company "F" supplied the blocking force as the ROKMC swept to the North. The operation resulted in 07 VC/NVA KIA, 03 individual weapons captured, 01 crew served weapon captured and 92 people detained.

(9) Company "E" with tanks, huskies and CIT attached conducted a cordon and sweep operation in the vic BT082655, on 16 June, detaining a total of seven personnel.

(10) On 19 June, Company "H" (-), in conjunction with CAP 2-7-8 and the 306th RF Company, cordoned and searched Tu Cau New Life Hamlet (BT054657) detaining seven personnel. Also, on the same day, Company "F" participated in a combined operation with the 591st RF Company in the Dueng Song (2-3) area (A995675) resulting in four detainees.

(11) On 22 June, 2d Battalion (-), the 25th and 27th Companies 5th Battalion, 2d ROKMC Brigade, and 1 Platoon 170th RF Company participated in a two day joint operation along the common border (BT073644) resulting in seven personnel detained and thirty-four well constructed bunkers destroyed.

(12) On 26 June, Secretary of the Navy Chafee visited 2d Battalion Command Post receiving a thorough briefing on the tactical situation within the TLOP, and also an indoctrination on booby traps including a practical application session in the Battalion's Booby Trap Lane.

(13) Anticipating a new high threat period, Company "K" 3rd Battalion, 7th Marines was passed OPCON to 2d Battalion on 29 June.

(14) A long range combat patrol inherent to the Battalion initiated operations this month after an extensive/intensive training curriculum was completed. The unit was task organized with a specific pre-emptive mission to work in those areas where allied activities were minimal and intelligence revealed evidence of enemy activity.

2. Air Support

a. In the month of June, the Battalion's air support was less than in previous months, although still significantly high. In addition to the normal resupply missions, medical evacuations, aerial observers, reconnaissance missions, and tactical troop lifts, the Battalion also utilized AC-119 "Shadow" flare/gun aircraft, and flareships on numerous occasions.

Helicopters were obtained from Marine Air Group 16; OV-10 aerial observation aircraft from Marine Air Group 11; and other fixed wing support such as flareships and "Shadow" flare/gun aircraft from the Air Force.

b. The Battalion had 30 medical evacuations in June totalling 59 personnel evacuated. There were 23 emergency U.S., 17 priority U.S., seven routine U.S., one routine killed in action U.S., two emergency civilians, one routine civilian, two emergency Regional Force Soldiers, three priority Regional Force Soldiers, one routine Regional Force Soldier, one routine killed in action Regional Force Soldier and one emergency VC/NVA.

The shortest delay for an emergency mission was ten minutes with the longest being 50 minutes, for an average time of 15 minutes per mission.

c. There were 288 resupply sorties flown totalling 445,970 pounds of cargo and 320 passengers carried.

d. The Battalion utilized 11 aerial observation aircraft and 53 visual reconnaissance helicopter missions.

e. Fifteen troop lifts were completed, for both "Stack Arms" and tactical purposes, amounting to 69 sorties with 1840 passengers moved in support of the Battalion. 169 of the total were moved in conjunction with a Battalion size joint operation with the 5th Battalion, 2d ROKMC Brigade on 22 June. One close air support sortie was flown, dropping a total of 3000 pounds of napalm and 3000 pounds of "Snake Eye" on a active bunker complex destroying 80% of same.

f. Five flareships were utilized with a total of 252 flares expended over a period of 11 hours and 14 minutes for GAF and Echo Company units in contact.

g. Other fixed wing support consisted of three AC-119 "Shadow" flare/gun missions, for a total of four hours and 47 minutes on station. Two missions were fired in support Echo Company, 2d Battalion and the third in support of GAF 2-7-9 resulting in 1 VC/NVA KIA.

h. On three occasions AH-1G helicopter gunship missions were utilized expending 98 rockets, 3,000 rounds of 7.62mm and 200 rounds of 40mm for Echo Company units in contact resulting in 1 VC/NVA KIA.

3. Artillery and Fire Support

a. Artillery & Fire Support was provided by Battery A and Battery B, 1st Battalion, 11th Marines; Battery F, 2d Battalion 11th Marines; Battery L, 4th Battalion 11th Marines; and the 3rd 8 Inch Howitzer Battery.

b. The 1st Battalion, 11th Marines remained in direct support of 1st Marines during the entire month with Battery B co-located with 2d Battalion, 1st Marines.

c. 138 observed missions were fired 36 of which were contact illumination missions fired in support of 2d Battalion, 1st Marines units and Combined Action Company 2-7 units initiating ambushes and/or detecting confirmed movement. Pre-emptive fires totaled 293 targets. These targets were planned on suspected enemy assembly areas, known enemy infiltration routes, avenues of approach, and known bunker areas. The total round expenditure for 105mm high explosive ammunition was 8,822 rds, 453 105mm illumination, 210 105mm white phosphorus; 32, 8 Inch high explosive rounds were also fired.

d. The 81mm Mortar Platoon fired 79 observed missions, 13 of which were contact illumination missions fired in support of activities engaged with the enemy. The remaining missions were prep fires on patrol routes of night activities. 81's also fired illumination on 25 targets in support of the Camp Lauer defenses. There was an expenditure of 4,553 high explosive rounds, 309 white phosphorus rounds and 570 illumination rounds. Three mortar sections were located in the Camp Lauer Combat Base (BT081703), one section in the Man Quan Company Patrol Base (BT042688) and one in the 17th Armored Cavalry Compound (AT990675) during the month.

e. Due to civilian population concentrations and ARVN activities, fires were restricted to several distinct areas. These areas are Cam Sa (1) (BT034644), Cam Sa (2) (BT097643), Ngan Trung (BT063643) and Man Quan (1) (BT036687). On occasion, clearance was received for the North Central and Northwestern sectors of the TAO which consist of thick treelines and rice paddy areas, affording excellent assembly areas for the enemy. Both observed missions and pre-emptive fires were directed into these areas upon clearance.

f. Clearance for artillery fire missions remains the most significant problem, although great strides have been made in attempting to expedite political clearance through the massive liaison network set up within Hoa Vang and Hieu Duc Districts. A more thorough understanding of artillery procedures by our Vietnamese counterparts will hopefully, in the future, dispel many of these problems and allow increased artillery support within the TAO.

SECTION D
TRAINING

7EO/rem
5750

1. Training

a. Training consists of Orientation for replacement personnel, refresher training as required for all personnel and attendance at formal schools.

b. The orientation course is broken down as follows:

(1) 5 day course. Designated for replacement personnel initially coming into the Republic of Vietnam.

(2) 3 day course. Designated for replacement personnel joining this Battalion from other "in country" commands. This training is geared to unique requirements relevant to this TAOR.

(3) Refresher course. Designated for personnel who need instruction on a specific subject or bank of subjects.

c. A 60mm Mortar School for all rifle company mortar sections was conducted by the Battalion on the 29th and 30th of the month. The school, instructed by 81's personnel, included three hours of classes covering nomenclature, functioning, firing, and range cards. After completion of the classes, each mortar section was given a three-hour practical application period on the Battalion's 60mm Mortar Range.

d. Also on the 29th and 30th of June, a Division Marksmanship Training Contact Team conducted FAM Firing, Weapons Zero and Quick Fire/Quick Kill classes for the Marines deployed in the field. Approximately 125 men from each rifle company participated in the training.

e. Formal and semi-formal schooling is conducted by 1st Marines and 1st Marine Division.

f. The Battalion orientation course includes the following subjects: MPC and Pinster spending, Pay and Allowances, Emergency Leave, Record of Emergency Data, Evac/Casualty, CAP Program, RFR, Postal Regulations, Private Weapons, PX Facilities, Request Mast, Respect for Religions based on Customs of Vietnam, Moral Guidance, Red Cross, S-2 Mission, VC/NVA Mission, TAOR/Weather, Enemy Forces, Enemy Tactics, Rewards Program, Handling of POW's, Care of Maps, VC/NVA Infrastructure, Interpreters and Kit Carson Employment, Security Compromises, War Trophies, Scouting and Patrolling, Basic Map Reading and Aerial Photos, Password and Countersign, Terrain Analysis and Navigation, Employment of Snipers, Battalion Mission, Supporting Arms, Air Support, Rules of Engagement, Troop Conduct, MLCV Rules of Engagement, Vietnamese Armed Forces, Spot Reports, Ambushes and Counter Ambushes, Demolitions and Destruction of Booby Traps, Booby Traps, Booby Trap Lane, Compass, Small Unit Tactics, Employment of Chemical Agents, Motor Transport, Supplies, Discarded Equipment, Armory, Engineers, Civil Affairs, Psychological Warfare, Vietnamese Customs/Personal Response,

SECTION E
LOGISTICS

1. Logistics

a. During June 1970, resupply of operating units as accomplished by helicopters, trucks, and huskies. There were a total of 288 resupply lifts with a combined weight of 445,970 pounds. Resupply by huskies and trucks amounted to approximately 17,520 pounds.

b. There were four work orders completed; these included the construction of two Sea Huts, one volleyball court, a ventilation system for COC, and the installation of shelves in the Stack Arms supply building. Work was started on three work orders which included the construction of a perimeter berm, with present bunker positions being upgraded, the repair of four leach fields and the construction of an outside storage lot for Battalion Supply.

2. Motor Transport

a. The overall deadline rate for the Motor Transport Section is 12%. This is an increase of 3% from the previous month. The increase in deadline may be attributed to an inordinate number of deadlined mules.

(1) The greatest maintenance problem has been the M2742 mechanical mule. Seven mules were deadlined during the month for Third Echelon Norm. Of those, four were for clutches, two for head gaskets and one for a new engine.

(2) Although these problems had been anticipated, due to Camp Leaver's sandy environment, a program of administrative deadline is presently under way. This together with vehicle discipline will hopefully reduce the deadline rate.

(3) The greatest First Echelon maintenance problem is the lack of water to clean vehicles. With the summer water conservation program in effect, the Battalion is left with no fresh water source for cleaning vehicles. There are no natural sources of water in the cantonment.

(4) The greatest Second Echelon maintenance problem remains the unavailability of spark plugs, carburetors, and seals to the M2742 mule.

(5) Two M151A1 Jeeps are currently on deadline. The two are deadlined for Third Echelon Norm for transfer cases. Seven M2742 mules are currently deadlined, however only one of the seven requires Third Echelon maintenance. Those requiring Second Echelon maintenance include two for plugs, one for shifting linkage, one for a carburetor, one for bearings, and one for an oil seal.

DECLASSIFIED

3/VED/rom

b. The personnel situation during the past month, has greatly improved; the section is presently operating only one man below T/O, that deficiency caused by a shortage of one driver.

c. Two driver school's were held during the month resulting in the licensing of 23 jeep and mule drivers.

3. Supply

a. The physical arrangement of the supply office was altered to allow for more efficient use of space and easier flow of paper work. The outstanding requisitions for formal account items were separated from other pending documents and placed under the direct control of the formal accounts clerk. This change allows closer attention be given to requisitions for major T/E and S/A and items.

b. The warehouse section is currently involved in a project to move all bulk storage boxes from the warehouse to the outdoor storage lot. This will allow more warehouse space for items which must be maintained in a protected area.

c. An inspection of the fiscal status of the Battalion was held on 17 June 1970. The rating received was "satisfactory with discrepancies"; currently all discrepancies are in the process of being corrected.

d. As a result of the Division-wide equipment redistribution program, several items of excess property were invoiced to other organizations. The following items were invoiced from the Battalion during June:

<u>ITEM</u>	<u>QUANTITY</u>
Radio Set AN/PDR-27J	1
Radio Transmitter AN/PRT-4	14
Refrigeration Unit ME-10	2
Refrigerator Prefabricated 100 cu. ft.	2

The following items were received as a result of the redistribution program:

<u>ITEM</u>	<u>QUANTITY</u>
Radio Receiver AN/PRR-9	5
Refrigerator 8 cu. ft.	1
Dispenser, Riot Control	1
Grenade Launcher M-79	13
Machine Gun M-60	9

e. An additional Supply Officer, 3002, 2d Lt. J. E. Leonard, joined the section on 19 June 1970. Two 3051's rotated during June, and two 3051's and one 3041 were joined. The section is currently two men over T/O for 3041's and one over T/O for 3051's. The armory is currently two over for the 2111 MDS.

f. Currently, supply shortages within the Battalion include T-Shirts, jungle trousers, poncho liners and camouflage helmet covers, which have all been reported on the LOGSUM report of 22 June 1970.

g. 57 personal effects cases were handled by the section during June.

h. Following is the ZERO status for June:

PART II
SECTION F
CIVIL AFFAIRS/CIVIC ACTION

1. Civil Affairs/Civic Action

a. Public Works. Public works received maximum attention in the Battalion MAOR during June. The main project was the moving of 1758 refugees from Ngan Cau New Life Hamlet to Tu Cau New Life Hamlet. 2,800 individual pieces of lumber and wood were delivered and distributed to the people of Ngan Cau New Life Hamlet for the rebuilding of their homes. Also delivered to Ngan Cau were 150 ammo boxes, carpenter's tools (hammers and saws) and 400 pounds of nails. The MF compound near Tu Cau received 1 truck load of wood and lumber which they had requested. A water analysis of the wells in Kuan Tra, Hai An, and Tu Cau were taken. Cement was obtained for wall aprons in Kuan Tra, and Hai An.

b. Welfare. During June, a total of 29,300 piasters was paid out for local hire under AIK (assistance in kind) employment fund. The pig project in Hoa Hai village is continuing to do well with the addition of two new litters; vaccination boosters are due and will be given in the near future.

c. Education. One-hundred General Malt Scholarships were distributed this month to the schools in this area. Fifty have gone to the students of Kuan Tra School, thirty to the students of Cam Nam School and twenty to the students of Giang Nam School.

d. Health. To aid in health improvement in the New Life Hamlets, excess food from the Battalion Messhall is distributed when available. Eight cases of cabbage and 75 pounds of corn beef were distributed to Ngan Cau NLH this month.

The daily medocap, which is carried on in the S-5 office, treated a total of 1,080 civilians for this month. During the move of refugees from Ngan Cau to Tu Cau, two medocaps were held and a total of 75 civilians were treated. Six civilians were treated for dental problems.

e. Social. Two major social functions were attended this month. The S-5 staff and Battalion Commander were present at the corner stone laying ceremony of the new Cao Dai Church in Hui Kim Son. A Vietnamese appreciation day celebration was held by Col. Tin at Hoi An, the Province Capital, which was attended by the S-5A.

f. Security. 10,000 sandbags were given to the people of Ngan Cau NLH for the building of bunkers. The Revolutionary Development Team in Kuan Tra was given two cases of illumination pop-ups.

g. Solatium. A total of 18,000 piasters was paid out for three different incidents which resulted in six people injured and one killed, including five RF's and two civilians.

PART II
SECTION G
COMMUNICATIONS

1. Communications

a. During June, the Communications Platoon provided and maintained all normal communications facilities for the Battalion. Maximum effort was put forth in the improvement of communications security and in reducing the number of security violations recorded by 1st Radio Battalion over voice radio nets.

b. Radio Relay Section. The Radio Relay Section continued to function in support of the Battalion, providing radio relay channels to 1st Marines Regimental Headquarters. A new PU-694 generator was installed to improve down time due to power fluctuations within the Command Post power system. Only 3.5% down time was experienced.

c. Radio Section. The Radio Section continued to function in support of the Battalion by providing and maintaining all radio nets. In addition, classes were conducted in the field for all radio operators and Company Commanders concerning communications security and the utilization of the new USKAC 801 "whiz wheels" to be implemented on 1 July 1970. Classes were also conducted for all newly arriving personnel on the importance of communications security.

A serious problem was experienced with Gould Marathon brand BA-386 batteries. The life expectancy was reduced to 2 to 3 hours with some lasting as little as 15 minutes.

d. Wire Section. The Wire Section maintained a continuous watch on the Battalion switchboard and the guard shack switchboard. The inside of the Battalion switchboard bunker was remodeled and painted. New cable was laid to the guard shack and old lines were removed. In addition, new cables were installed within the cantonment to replace the old slash lines for improved telephone communications and resistance to moisture.

e. Message Center Section. The Message Center experienced only 15 hours and 29 minutes of down time, caused principally by outage of the radio relay shot to Regiment. 43 outgoing messages and 784 incoming messages were processed.

f. Electronics Maintenance Section. Normal repair operations and 2d echelon maintenance were performed during the month. The following equipment was repaired:

PART II
SECTION H
MEDICAL & DENTAL

1. Medical and Dental

a. The Battalion Surgeon is Lt. F. A. Cardolla, MC USNR. The Battalion Chief is HHC G. L. Adams, USN. During this reporting period, the Battalion Aid Station had two Officers (1 Medical Corps and 1 Chaplain Corps) and 44 enlisted in the field and in garrison.

b. The Battalion Aid Station treated 545 patients during the month. Entomologist from the Division Preventive Medicine Unit surveyed the area and found no significant sanitation defects. Routine monthly sanitation inspections of all outlying units were made, and recommendations for the discrepancies were submitted. There are no major sanitation problems at this time.

c. Analysis of mortality figures reveal three USMC KIA, one USMC DOW, 31 USMC MIA, six USMC NBC, and one USMC WIA. There was one USN NBC and one USN WIA.

d. Analysis of routine treatment revealed seven cases of diarrhea, 14 cases of upper respiratory infection, 50 cases of foot disorders, 28 cases of skin disorders, 11 cases of G.C., ten cases of fever of undetermined origin, and no new cases of malaria or hepatitis. There were 425 patients treated for miscellaneous problems at routine sick call, and there were 312 dental patients seen.

e. The immunization program was adequate; 1,003 immunizations and 185 Tuberculin tests were given to members of this Battalion.

f. The civilian medical program was active. There were 1,080 Vietnamese civilians treated for medical reasons, of which two were combat related injuries. Seven Vietnamese civilians were treated for dental reasons.

g. There were 67 USMC and six Vietnamese civilians evacuated for medical reasons.

h. Since the Hospital at NSA closed, the Battalion has to use the facilities at 1st Med, USS Sanctuary and 95th Evac Hosp. to obtain the same services which were available at NSA. Having to use the above three facilities results in many lost man hours because of the time involved in transporting personnel. Most optical services are now received from the Army at the old NSA location, with very good results.

i. There were five dental patients sent to 1st Dental and the Dental Dept lost twenty-four man hours due to a power failure in the component.

SECTION I
CHAPLAIN

1. Chaplain

a. During June, the Battalion Chaplain conducted 16 services for the Catholic personnel of 2/1, with approximately 390 in attendance. Eight services were offered for Protestant personnel by the Regimental Chaplain, both in the Camp Chapel and in the field, with 180 men attending. Special Services were introduced to accommodate personnel of the Latter Day Saints Church and were held each Sunday by a Marine Officer of 2/1 who is an approved Group Leader of the LDS Church. 15 personnel participated.

b. A total of 68 Marines were counseled by the Battalion Chaplain and approximately 15 were assisted in completing Emergency MARS Calls to their families. Some 29 patients were visited in the area hospitals. With the closing of NSA Hospital, Marine casualties are now being treated on the USS Sanctuary Hospital Ship. Weekly visits to hospitalized Marines are made via Helicopter or while the Sanctuary is anchored in Da Nang harbor.

c. Four trips were made to the III MAF Brig where a total of 14 different internees were visited. Also, four lectures on Personal Response were given to 84 incoming personnel.

d. 1,000 gift packs were received from the Division Chaplain's Office for distribution among the troops in the field via Project Thank You, which is sponsored by the Laymen's League of the Christian Reformed Church. In addition, several boxes of cookies and cakes, sent by private organizations, were also distributed to the men in the field.

e. The Battalion Chaplain as well as the Battalion Commander and the S-5 Officer were in attendance at cornerstone laying ceremonies of the new Gao Dai Temple in Nui Kim Son.

3.	FC	GL	010432H	Rec'd the Passwords for 01 June 1970.
4.	GLE	GL	010730H	(1) VN child came to PPB at BT052660 w/piece of shrapnel in abdomen. Condition was good as examined by Corpsman. Sent to 2/1 BAS to have shrapnel removed. BT052660.
5.	GLG	GL	011145H	Unit found numerous family bunkers w/food inside. Mixed w/food was (1) drawing of helicopters and rifles. The same drawings were also found in the bunker on the walls. Unit is destroying bunkers and checking ID's. BT067648.
6.	GLE	GL	011200H	Used (40) bangalore torpedoes to destroy (16) bunkers, (10) spider holes, and 50ft. of trench lines located at above grid (BT028675). Bunkers were mound-shaped and built of brick and wood. BT028675 and BT035671.
7.	GLG	GL	012031H	Unit while moving toward ambush site spotted a fire 75m to the southwest. The unit checked out w/starlight scope and believed to see movement. Unit opened fire w/(5) M-79 HE rounds and (1) M-79 illum. round. Golf CP provided them w/60mm illumination. Unit swept and counterswept w/neg. results. BT063666.
8.	GLF	GL	012205H	While firing prep-fire mission, (3) secondary explosions were observed. These were possible M-26 or 60mm explosions. Area and grid will be submitted for future fire missions. BT088676.
9.	GLH	GL	012330H	Prep-fired AT981671, at 2136H w/(30) 105mm HE rounds. Rec'd (1) large secondary explosion believed to be 82mm round or larger. Also observed tracers either fired or "cooked off". At approx. 2145H (1) squad was used as a blocking force from the east and was sweeping westward. Detained suspected VC at AT981671 until first light when a more thorough search of the area will be made and detainees will be turned over to IPT/CIT. During sweep prior to prep-fire, unit saw (2) fires & heard people talking and laughing. The sweep came upon (12) civilians; (7) females, (4) males and (1) dead male approx. 40 yrs. old. AT981671.

3.	FC	GL	020435H	Passwords for 02 June 1970, rec'd.
4.	GLB	GL	020600H	"Pacifier" was landed at 020600H at BT068632 to investigate local intelligence/informants' report. Unit swept immediate area discovering (1) well constructed bunker (12' long x 4' high x 6' wide) unoccupied. Also found (1) M-26 booby trap w/trip wire. Both bunker and booby trap were destroyed w/C-4. (2) individuals were captured. Both attempted to flee the area when they saw the Marines. Upon being captured (1) individual w/out a weapon attempted to Chieu Hoi. The second VC/NVA was captured after being chased by the HCA aircraft and was taken to hill 34 where he will be picked up by CIT working with 2/1. Second individual possessed 9mm pistol, assorted documents, and (3) M-26 grenades at time of capture. Individuals were captured immediately. Center of mass BT068632.
5.	GLH	GL	020630H	H-1-3 swept at first light in area of AT981671. Prior to shooting-unit had received fire from above grid. One man from H-1-3 returned fire & (1) VC/NVA believed to have escaped to the northwest. Neg. weapons found. Detainees are being questioned by RF's from T-1 CUPP. (Refer to Journal #9 of (1) June 70). Patrol will be sent to northwest to sweep treeline. AT981671.
6.	GLG	GL	020900H	Unit obs'd (8) persons believed to be VC/NVA passing their position. Cap unit informed unit of status of these persons. Unit gave chase to personnel and apprehended at above grid (BT060650). Sent personnel to ITT., BT060650.
7.	GLE	GL	020900H	Investigation of last night's arty mission in which 162 HE rounds were fired and in which (6) minor secondary and (1) large secondary explosions were obs'd revealing a fresh crater 15ft. in diameter. Pieces of shrapnel believed to be of non-U. S. origin, (2) bamboo poles 1-1 1/2 inches in diameter and 10ft. long (the type commonly used to support rockets) were found, (2) sloped poles 3ft. long and 1ft. wide directed toward Danang were also found. The arty mission was balled because (3) male and (1) female indiv's. were in area; obs'd by field glasses. Persons were thought to be observing Echo Company CP. BT041695.

8.	GLH	GL	020915H While H-1-2 was on day patrol, found (1) 60mm round. Could not determine whether or not it was booby trapped. BIP. AT982656.
9.	GLF	GL	021040H Point man of unit saw female running from him and yelled for woman to stop. Unit chased and caught her. She had no ID and had 3700VHS in her possession. She was detained and sent to ITT for interrogation. BT078676.
10.	GLF	GL	021330H Found haversack w/approx. (10) cans of food and (2) C-ration cans full of C-4. Checked area for possible booby traps. BIP captured gear. BT094664.
11.	GLRCC	GL	021400H Source, CIT and elements of 106mmRR platoon discovered (57) rounds of 82mm mortars at BT078644. Cache buried in loose sand approx. 1½ ft. deep. Discovered (1) secret tunnel vic. BT071649. Tunnel destroyed. Captured ordnance taken to S-4, 2/1. BT078644.
12.	GLE	GL	021340H There is strong evidence to support the presence of rocket positions. (2) to (3) individuals were sighted in the area for a sustained period of time, provoking the fire mission originally. The huge fireball plus approximately (6) smaller secondary explosions attest to a concentration of cached ordnance. Inspection of the site revealed an enormous crater similar to a 122mm rocket and (2) pairs of crossed sticks in the normal fashion of launchers were discovered. Two pits were recognizable although the craters obligated them. Shrapnel identifiable in the area was described by the arty investigator as 105mm only, however. BT041695.
13.	GLH	GL	021600H (2) VN boys apparently tripped an M-26 booby trap. (1) boy had a broken hand, part of his nose and mouth ripped off and shrapnel in both legs. The second boy had shrapnel in his chest and a badly wounded leg. Boys were ages 13-10. Called (2) emerg. medevacs. AT966667.
14.	GLF	GL	021615H During past (2) days children have brought in (3) 105mm rounds, (4) 81mm rounds, (6) M-26's, (5) IAAW's, (6) Chi-Con's and (2) 60mm rounds. Paid 7100VHS and BIP. BT068704.
15.	GLF	GL	021615H Children brought (1) 60mm HE round in poor condition to F-2's position. Fox-2 paid 100VHS for the round. BT082648.
16.	GLF	GL	021700H Children brought in (2) 105mm HE rounds, (2) Chi-Con's, (1) M-26 and (2) hell boxes. Paid 2000VHS & BIP. BT072669.

2.	FC	GL	140305H	Rec'd the Weather Report for 14 June 1970.
3.	FC	GL	140310H	Rec'd the Passwords for 14 June 1970.
4.	GLG	GL	140630H	Unit while moving to ambush site last night felt they were in heavy booby trap area and therefore set in ambush site in immediate location. This morning the squad checked the area finding and destroying (2) booby traps. While checking further a house was uncovered w/enemy equip. therein. As the unit checked in & around the house (1) M-16 AP mine (bouncing Betty) was tripped 4' inside house resulting in (2) emerg, and (2) priority medevacs and (1) USMC KIA. As Corpsman was tending to wounded it is believed he tripped a second M-16 AP mine resulting in (1) emerg. and (4) priority evacs. Second mine was tripped at entrance to house. Medevac was called at 0630H and completed at 0645H. Another squad was dispatched to the area to aid w/medical evacuation and extraction of remaining three members of the squad. The 1st Platoon Commander was a priority medevac and the Corpsman an emerg. evac.
5.	GLG	GL	140630H	FOLLOW UP TO REGT. JOURNAL #3.: This is a follow up on the initial spot submitted at 140830H. G-1-4, including Plt. Cmdr., Corpsman, and LG team, a total of 16 men, sensed a heavily booby trapped area while enroute to their night amb. position. Detecting two trip wire Chi-Con type booby traps they withdrew to a modified site and at 0600 moved out to check out the booby trapped house. The sqd. ldr. went forward personally to investigate the doorway and interior, while the plt. cmdr., point man, M-79 man, and fire team ldr. dispersed outside in approx. a 15m semi-circle. After a deliberate inspection the sqd. ldr. motioned the M-79 man forward to fire inside while moving aside himself. The other three individuals then moved towards the hooch. The M-79 man tripped an M-16 AP mine which detonated approx. 9ft. off ground. All 5 men were immediately wounded and fell in their places. The corpsman and (4) other Marines were immediately hurried forward, each to the assistance of one of the wounded - the Corpsman tending to the seriously wounded sqd. leader. The Corpsman tripped a 2d mine killing sqd. ldr & wounding himself & (5) other men. Radioman secured LZ & accomplished medevac w/in 15 minutes. AT975650.

3.	IB	CP	260235H	Rec'd the Weather Report for 26 June 1970.
4.	CPH	CP	260800H	RF's while on a search & sweep of area in conjunction with forthcoming elections, spotted (3) VC/NVA by a bunker. The (3) VC/NVA threw (3) M-26 grenades and attempted to escape but were pursued physically and by fire, killing (2) NVA and capturing (1) POW. Search of area continues for possible weapons & ammunition storage. POW is being returned to 1/34th RF Group HQ's. POW stated that all three were from the T-89th BN. (NVA). BTO34675.
5.	CPH	CP	260800H	This is a follow up of contact reported earlier in which (2) VC/NVA were killed and (1) VC/NVA captured. The POW was brought to 1/34th RF Group HQ's where he was interrogated. 3rd ITT and 2/1 S-2 were present. POW was caught in several lies and his allegation that he was part of the T-09th BN. could be true or untrue. He refused to give any information as to his mission. He will be questioned further by 1/34th and then taken to Hoa Vang for still further interrogating. A map found on the scene had markings which were apparent traces of routes in the 2/1 TAOR as well as a river crossing (Vien Dinh) and a few marks at various places within the TAOR which could be meeting sites or firing positions. According to the POW the map belonged to the squad leader who was one of those killed. There were also other documents which will be examined by 2/1 S-2 and 1/34th RF Group HQ's tomorrow. BTO34675.
6.	CP	CP	260900H	Divers from 1st Force Recon Dive Team searched Vien Dinh river from Tu Cau Bridge (BTO32649) to 72 Grid line with neg. results. Tomorrow will search various smaller bodies of water in the 2/1 TAOR. BTO32649.
7.	CPH	CP	260950H	(2) ARVN's operating w/joint operation tripped unknown type booby trap resulting in (2) emerg. evacs. M-1-4 Corpsman was dispatched to the scene to give assistance. Called in and completed (2) emerg. evacs. BTO38683.
8.	CPE	CP	261100H	Unit while on patrol found (1) booby trapped smoke grenade canister filled w/C-4 & electrical blasting cap attached to a trip wire. Destroyed booby trap w/C-4. BTO91653.

9.	CPF	CP	261140H	Further search of area of last night's suspected movement revealed (12) rounds of M-1 Carbine ammo, (1) spool of thin wire and a bunker. The bunker was 3 ft. high and 4 ft. wide and 12 ft. long rein. w/bricks and bamboo. Rounds and bunker BIP w/C-4. BT076667.
10.	CPE	CP	261615H	Echo 2/1 OP at BT087678 spotted 10-15 VW males (8) of which were in (2) boats. (1) boat had a long cylindrical object that appeared to be an 82mm mortar tube. People were moving out of brush in a manner which appeared to be a transfer of the object from boat to shore. (2) personnel had green utilities on & people hid away and hid from all over flying aircraft. Fired 105mmHE (199) rounds at 1707H also fired 81mmHE (80) rounds and (25) rounds of 60mmHE at 1704H. OP's and PPB's obs'd area until reinforced platoon swept, and searched area. BT080670.
11.	CPH&S	CP	261615H	Grid was marked on a map captured from a VC/NVA by Hotel Co. & 157th RF Co. Possible that an 82mm mortar and rounds might be hidden in the vicinity of the grid BT067703 or that it was possibly an enemy meeting place, or a point on a secret enemy route. Set in a blocking force between grids BT068700, and BT066705 with H&S-1. Swept area by grids BT068700, BT066705, BT073706, and BT071702 w/CAP 276, PF's and H&S-1 CP Group. Counter swept area w/entire unit using ordnance locators. Results neg. BT067703.

10.	CPF	CP	272255H	LATE FOLLOW UP ENTRY: The RF who was KIA apparently trip- a booby trap as the grenade went off underneath his body while he was lying in ambush. His hands were blown off and he had heavy multiple shrapnel wounds in arms and low- we chest. RF unit reported in vicinity was actually approx. 125m away at time of incident and out of throwing range. No M-79 rounds were fired. Nearby RF act. was an unexpected patrol sent out in reaction to intelligence rep. by 59th RF Bn. In order to prevent possible friendly unit against friendly unit situation which could result when all patrols are not reported the 2/1 S-3 and 59th RF Bn S-3 are laying down more guidelines in mutual report- ing of patrols in the area. The unexpected patrol and bo- oby trap incident are not connected. AT970684.
