a bulldozer with Army personnel aboard tripped another booby trap, 105 mm or 155 mm. The bulldozer was on top of the booby trap, when it went off. The personnel aboard the bulldozer received concussion effects only which resulted in one priority and one routine medevac. A LOH again landed and picked up the priority medevac. The one priority and one routine medevac was picked up by a CH-46 medevac chopper. The damage done to the bulldozer was that one track was blown. The final analysis shows one emergency and one priority evacuated by the LOH. Also that Inland Docket 6 and the one routine ^{medevac} were evacuated by CH-46 medevac chopper.

DTG SENT TO REGIMENT _____ REGIMENT JOURNAL # 13

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the organization's finances and for ensuring compliance with applicable laws and regulations.

2. The second part of the document outlines the specific procedures that must be followed when recording transactions. This includes the requirement to use the appropriate accounting system and to ensure that all entries are supported by valid documentation.

3. The third part of the document discusses the role of the accounting department in the overall management of the organization. It highlights the importance of providing timely and accurate financial information to management for decision-making purposes.

4. The final part of the document provides a summary of the key points discussed and offers some concluding thoughts on the importance of maintaining accurate financial records. It reiterates that this is a fundamental responsibility of the accounting department and that it is essential for the long-term success of the organization.
