2. GENERAL, WEATHER AND TERRAIN

a. General. During the month of January there have been numerous sightings of enemy in the area. The enemy demonstrated his ability to move without detection by locating troops in Cam Sa (1), Viam - Dong, Tra Kho (3), and Tra Lo. Evidence of this can be seen by the number of enemy encountered in cordons in these areas. There has been a marked increase of agent reports of enemy infiltration and pending attack. SFD incidents have decreased despite intelligence sources which report that enemy units are increasing the use of SFD's. From Gold's contacts and sightings in the Marble Belt (proximity 3K06/15) there appears to be an infiltration route from west to east in the Marble Mt. Complex.

In conjunction with 3rd sub-team 3rd CIT, a new Blacklist for the A⁶ has been completed and distributed.

There was a sizeable pick up in the Volunteer Informant Program.

The bunkers were approximately eight feet to 12 feet long, four to six feet wide, and six feet high. They were constructed of brick and dirt.
