SYNOPSIS

21 Sept - At 0720H ANDERSON TRAIL road sweep completed with negative results. At 1200H H/1 at BT 019571 noted a figure in the tree line at BT 019578. He was dressed in black clothing and was ~~maneuvering~~. He was taken under fire by 50 caliber machineguns on AmTrac and was seen to fall. No search of the area was conducted due

SECRET

to nature of the operation. At 1355H E/1 patrol at BT 025627 had a man step on a mine and med-evac was requested. As med-evac helicopter approached the LZ it received 10 rounds of small arms fire. It was suppressed with small arms, M-79, 60mm mortars, and a UH-1B. Area was swept with negative results. Result was 2 US WIA's. At 1640H F/1 at BT 047601 received 4-5 rounds small arms fire from unknown number of VC; fire was returned and area was swept with negative results. At 1750H H/1 at BT 012568 received small arms fire from 2 VC at BT 012570. Fire returned consisted of 30 caliber, small arms, and 106RR which silenced the enemy fire. H/1 continued assigned mission. At 1530H E/1 at BT 026627 received sniper fire from BT 028623 and an artillery mission was fired. Area was swept following the mission with negative results. At 1940H F/1 at BT 038606 received 20-30 rounds of small arms from BT 036606; it was returned with small arms and 81mm mortars. Area was swept with negative results. There were 4 platoon and 1 squad search and destroy patrols; 5 platoon and 4 squad security patrols; 2 platoon and 5 squad ambushes; and 2 listening posts during this period.

SYNOPSIS

22 Sept - At 0730H ANDERSON TRAIL road sweep completed with negative results. At 1040H Bn CP (BT 015627) received 5 rounds small arms fire from the vicinity BT 009627; fire was returned by 81mm mortars with good effect on target. At 1140H H/1 at BT 012568 received 1 sniper round from BT 007574; fire was not returned due to the sniper's position remaining unknown. At 1500H E/2 at BT 037645 picked up a VCS with a faulty ID card. The VCS will be delivered to PF forces for further interrogation. At 1515H H/2 reported a PF had turned over to H/2 2 VCS who were found by the PF's not to have proper ID cards. VCS were moved to Hotel CP area for transfer. At 1600H H/2 at BT 019371 received 30 rounds of automatic/carbine fire from BT 013573; it was returned with small arms and M-60's. Area was not swept due to ARVN firing at enemy area and also because of road security mission. At 1605H H/1 at BT 023573 received 10 rounds of sniper fire from BT 023579; it was returned with small arms, M-60's, 50 caliber, and 81mm mortar mission. Area was not swept due to mission of providing security. At 2215H H/2 fire team security position at BT 042579 with ONTOS reported 2 figures moving through treeline at BT 041579 south across Route #14. Figures were taken under fire by 30 caliber, M-60's, 3.5" rocket launchers and 60mm mortars. Area will be swept at first light. There were 4 platoon and 1 squad search and destroy patrols; 5 platoon and 4 squad security patrols; 2 platoon and 5 squad ambushes; and 2 listening posts during this period.

SYNOPSIS

23 Sept - At 0725H ANDERSON TRAIL road sweep completed with negative results. At 0820H G/1 at BT 003634 received 5-6 rounds of small arms fire from AT 996628. Fire was returned with M-79, small arms, and 60mm fire; area was searched with negative results and patrol continued its assigned mission. At 0845H H/1 at BT 013568 observed a figure dressed in black and white moving to avoid detection at BT 011567. He was taken under fire and seen to be hit. APC's with ARVN's and Army personnel searched the area. Results were negative. At 0955H F/3 at BT 042597 received 2 rounds of small arms fire and saw 2 VC carrying weapons. Fire was returned with small arms and area was checked with negative results. At 1115H G/1 at BT 013568 received small arms fire from BT 013571 and BT 013576; an 81mm mortar mission had good coverage on target and permitted patrol to continue mission as road security. At 1400H E/3 at BT 042579 received 10-12 rounds of sniper fire from BT 044576. Fire was returned with control due to the presence of rice harvesters. At 1440H E/3 had a man killed by a mine at BT 022628; man was med-evac'd at 1511H. There were 7 platoon and 4 squad security patrols; 1 platoon and 3 squad ambushes; 4 listening posts; and 4 observation posts during this period.

SYNOPSIS

24 Sept - At 0715H ANDERSON TRAIL road security/mine sweep reported road open and negative contact with enemy. At 0745H E/1/D at BT 037620 discovered and apprehended a suspicious Vietnamese male, who was turned over to RF's at THANH QUIT Bridge. At 0815H OPERATION COFFEE commenced. At 0945H Foxtrot moving at BT 047595 apprehended a VCS and retained him with the main body. At 1145H H&S wire section received sniper rounds from unknown location from the north causing 1 WIA. As med-evac helicopter attempted to land at BT 008633 it received fire from east, south and north.

The helicopter landed and quickly lifted off and moved the WIA to G/3 position at AT 989642 where med-evac was completed. Wire team section returned toward the Bn CP and received automatic fire from BT 001639. From their position at BT 003035 a 60mm mortar mission from G/3 position was called and suppressed the fire. At 1215H, Foxtrot Co at BT 035593 received 4 rounds of small arms fire from BT 031593; fire was returned with small arms and area was swept with negative results. At 1230H, Foxtrot Co at BT 033592 again received small arms fire from BT 033600. An artillery mission was called but area was not swept due to the barrier of river. At 1335H G/2 patrol at BT 014538 apprehended 3 VCS without weapons; VCS were returned to Bn CP on completion of patrol. At 1345H Foxtrot Co at BT 025593 discovered a bloody shirt and a blood pool, area was swept with negative results. At 1430H Foxtrot at BT 055591 received small arms fire and an airstrike was called on the enemy's position at BT 021591. Area was swept with negative results. At 1530H G/3/A patrol at AT 994634 received 10-20 rounds of small arms fire from AT 998637; fire was returned with small arms and 60mm mortars. Area was swept with negative results. At 1315H to 1335H Golf Co had 2 rollers load the patrol to the vicinity of suspected VC at BT 014638. When they arrived they apprehended 3 VCC females, 1 of which was the hamlet women association leader and the others were supply agents and messengers. While at this position, they received 10-12 rounds of sniper fire which was returned with small arms and M-79's, which silenced sniping. VCC were delivered to CIT. At 1635H Echo Co at BT 022573 received sniper fire from BT 019583 and returned same with small arms, 60mm mortar, and artillery. Sniper fire ceased and Echo continued to truck pick-up point. At 1745H Echo Co at BT 038578 received heavy automatic fire from BT 038580 from an estimated 5 VC. Fire was returned with small arms, 106's, 60mm and 81mm mortars, and an artillery mission, this silenced the enemy's fire but due to approaching darkness and truck pick-up time a sweep was not feasible. A probable count of 5 VC KIA's was registered. At 1900H G/3 at AT 989642 received sniper fire from AT 990635; fire was returned with machine-gun. Area was swept with negative results. There were 2 platoon and 1 squad search and destroy patrols; 5 platoon and 2 squad security patrols; 1 squad ambush; and 4 listening posts during this period.

SYNOPSIS

25 Sept - At 0735H ANDERSON TRAIL mine sweep completed with negative contact. At 1330H a group of 25 civilians brought 21 burned bodies to the Bn CP (BT 015627). They stated that they had been killed by US Marine planes dropping napalm. They said that they were killed in the vicinity of BT 028592 at 1430H; this accusation was questioned due to the fact that only 2 tanks of napalm were dropped - one was a dud and one was observed to land in a rice paddy. A CIP has been requested to conduct an investigation. There were 5 platoon and 3 squad search and destroy patrols; 4 platoon and 7 squad security patrols; 4 squad ambushes; 4 listening posts; and 4 observation posts during this period.

### SYNOPSIS

26 Sept - At 0655H G/3 at BT 000642 saw a VC with rifle run into hamlet (BICH NAM(2)) at BT 000639; he was taken under fire with small arms and wounded. During the period 0700H to 1200H hamlet was swept with dogs, PF's, and a psychological warfare unit while Echo and Golf Companies surrounded it. At 1040H 1 of the CHIEU HOI's was overcome by gas and med-evaced. Later he returned and pointed out 2 VCC and 1 VCS from the group of 6 women detained during the sweep. Results of the action were 1 VC WIA, 2 VCC, 1 VCS; 1 tunnel and a mine destroyed; assorted clothing, a punji stake, and 2-3.5" rockets were found and returned to En CP. At 0915H F/3 at BT 043599 spotted 2 VC at BT 041598; they were fired on and the patrol swept the area with negative results. At 0945H G/3 at AT 989642 received 1 round of sniper fire from AT 993633; it was returned by 7 rounds of 60mm mortars. The sniper fire ceased. At 0950H H/2/A patrol at BT 028586 received 3-5 rounds of small arms fire which was answered by 50 caliber, 3 M-79 rounds, and small arms fire. The patrol continued its mission while receiving sporadic fire. Area was checked with negative results. At 1245H F/2 at BT 027634 surprised 2 VN males on a trail and they ran from them; the patrol pursued but was

unable to apprehend. Later 1 VN male returned on a bicycle and was questioned and released after he was identified as an ARVN. At 1305H F/1 at AT 997633 was moving from blocking position when they were fired on by 3 automatic weapons from AT 999628, AT 994628, and AT 996626. Fire was returned with a heavy volume of small arms, machineguns, 106RR, and artillery; VC broke contact and fled in unknown direction. Platoon continued mission. At 1530H H/3 CP observed a body floating in the SONG DIEN BINH river with a badly burned torso and 1 leg missing. It appeared to have been dead for several days. An attempt to retrieve the body failed and the matter was reported to DIEN BINH District Headquarters. At 2115H H&S reported 15 rounds of small arms fire were taken at the POW tent from BT 011622. The prisoners were moved to a more secure position. The 81mm mortars were laid on the sniper's position should firing resume. However, they were not fired. There were 1 platoon search and destroy patrol; 5 platoon and 2 security patrols; 2 platoon and 2 squad ambushes; 4 listening posts; and 4 observation posts during this period.

S-3	Rgt	1810	STOT REPORT #19

A- Foxtrot  
 B- 270500H to 271230H  
 C- BT 011607  
 D- 1 of the Vietnamese women who brought the burned bodies to the Bn CP on 25 Sept was identified as a VCS by 1 of the CHU HOYS during interrogation on night 25-26 Sept. She agreed to lead a patrol to her hamlet and point out the VC in the hamlet, in return for which she asked for safe haven for her 2 children then living in the hamlet and herself.  
 E- At 270500H Foxtrot Co and 2 scout dog teams, engineers, and an interpreter accompanied the women from the Bn CP (BT 015627) to her hamlet (BT 011607). With 1 scout dog at the point, the Co moved in a column of platoons via BT 004623 and established a platoon blocking position from BT 007609 to BT 011609 to provide security to the north and to establish killing zones both east and west of hamlet. At 0700H 2 rounds were fired from 2 different positions, apparently not directed at the patrol, but rather marking the east and west flanks of the position. At 0710H 1 lone sniper round struck a marine in the leg. Med-evac requested. F/3 with a dog team passed thru the blocking position and commenced sweep south toward BT 011606. At 0720H F/3 received small arms fire from the south. Fire was returned by the platoon. F/2 in blocking position received fire from across the river BT 007607. Patrol returned fire, 4 rounds of mortars (possibly 60mm) fell on F/3 position at BT 011607. Artillery fire called on south side of river at BT 012605. Med-evac helicopter arrived and supporting fire was ceased. Helicopter attempted to land twice in LZ at BT 007608, each time receiving fire at BT 003615, BT 003612, BT 010614, BT 019621 and along southern banks

FROM TO TIME MESSAGES

of the river. Several shots struck helicopter resulting in aircraft damage and slightly wounding Co-pilot. Armed med-evac escort delivered all ordnance at above coordinates but was unable to silence small arms fire. Med-evac helicopter landed in LZ crowded (2/1 CP), while artillery mission was conducted. Concurrently F/1 with dog team, interpreter, VCS, Co Command Group, and engineers conducted a sweep of the village moving south in trace of F/3. VCS identified her house at BT 011607 but the 2 children were not there. Search was continued and the scout dogs alerted the patrol to a house at BT 012606 where the 2 children were found along with 4 VN women and 10 other children. VCS and other women were questioned but no information about weapons, personnel, mines, or supply caches could be attained. At 0918H a tunnel was discovered, searched, and destroyed at BT 011606. A bamboo bridge located at BT 010606 was discovered by F/3. Search of village continued until 0958H with negative results. Co commenced sweep north, supported by artillery fire at BT 009613. Sporadic sniper fire continued during northwest movement. 1 sniper round was determined to have been fired from a PAGODA at BT 007617. A squad and dog team swept the PAGODA and found 1 spent cartridge. F/3 moved to BT 006621. 1 platoon moved west to complete previous med-evac at BT 010619. F/2 remained in ambush position in vicinity of PAGODA. Med-evac arrived, and was fired upon by 1 or 2 semi-automatic weapons in the vicinity BT 013617. Fire was returned with small arms, 3.5" rockets, and 60mm mortars. Target was marked with WP for armed escort helicopter which delivered a machinegun and rockets fire on enemy position. Med-evac completed at 1147H without further incident. 81mm mortars fired mission on the position and F/1 swept the area with negative results. Company returned to En CP.

SPOT REPORT

A- Hotel

B- 272240H

C- BT 041582

D- As Hotel moved along rice paddy dike H/1/A patrol ambushed by unknown number of VC who fired small arms and threw at least 3 hand grenades wounding 1 Marine. E- Patrol returned fire and called 81mm and 60mm mortar missions. Fire missions had good coverage on target. VC broke contact and fled in unknown direction. Patrol returned W/L to CP and is moving out over different route to establish ambush at BT 032579. Area will be swept at first light.

F- None.

G- 1 (minor)

H-N- Unknown.

Regt	S-3	2400
------	-----	------

The bridge on route 2/B; vicinity BT 028734 will be closed for repairs from 0800H to 1600H on 29 Sept.

SYNOPSIS

27 Sept - At 0500H Foxtrot Co with 2 scout dog teams, engineers, and an interpreter accompanied a woman from the Bn CP (BT 015627) to her hamlet (BT 011607) to search out any VC and to find the woman's children. At 0710H 1 lone sniper round struck a Marine resulting in 1 WIA. E/1 platoon with dog team, interpreter, VCS, Company Command group, and engineers conducted a sweep of the village. Woman identified her house at BT 011607, but the children were not there. Search was continued and the scout dogs alerted the patrol to a house at BT 012606 where the 2 children were found along with 4 VN women and 10 other children. The other women were questioned, but no further information about weapons, personnel, mines, or supply caches could be attained. At 0918H a tunnel was discovered searched, and destroyed at BT 011606. A bamboo bridge located at BT 010606 was discovered. A search of the village continued until 0958H with negative results. At 1050H E/2 patrol at BT 032624 observed a man running into the treeline approximately 100 meters to the south. The man was wearing green clothes and a pack; no helmet or weapon. The patrol fired small arms and an M-79; a squad swept the area with negative results. At 1420H G/1 at BT 012647 had 1 grenade thrown at the rear of the column which resulted in 1 minor WIA. The patrol returned small arms and M-79; area was checked with negative results. At 2030H the Bn CP (BT 015627) received several small arms rounds from BT 002622. 10 rounds of 81mm mortars were returned. The small arms fire ceased. At 2125H E/3/B in ambush position at BT 013618 captured 2 VCC without weapons wearing white PJ's. They were traveling east along the trail with a 2 minute interval between them. They were taken to the RF compound at the THANH QUIET Bridge for the night. The ambush was relocated. At 2130H the Bn CP (BT 015627) received several rounds of small arms fire from BT 002622. The fire was apparently provoked by the Psychological Warfare loudspeaker broadcast from the Bn CP. Fire was returned by 81mm mortars and 2 106RR's silencing the sniper fire. At 2240H E/1/A as it moved along a rice paddy dike at BT 041582 was attacked by an unknown number of VC using small arms and hand grenades. The patrol returned fire while calling in an 81mm mortar mission which had good target coverage. The VC broke contact and fled in an unknown direction; the patrol returned to the Hotel CP with 1 WIA and prepared to move out over different route to ambush position.

There were 2 Platoon search and destroy patrols ;  
5 platoon and 1 squad security patrols; 3 platoon  
ambushes; 4 listening posts; and 4 observation posts  
during this period.

SYNOPSIS

28 Sept - At 0710H ANDERSON TRAIL road sweep completed with negative contact. At 0830H Echo 3 had a patrol member trip a M-26 grenade rigged as a mine with a trip wire attached to a bush at BT 032634. The patrol hit the deck and no casualties resulted; the patrol continued on its assigned mission. At 1130H E/3 patrol at BT 021628 was attacked by an unknown number of VC from the vicinity of BT 024623 and BT 026619.

~~SECRET~~

About 10 rounds of automatic and semi-automatic weapons fire were received wounding 3 Marines. E/1 and E/2 with the Echo command group deployed from the Bn CP to exploit the contact with the enemy. An 81mm and artillery mission was called in on enemy's position. In the face of superior numbers the VC broke contact and fled in unknown direction. One VCS was captured and returned to the Bn CP. At 1243H E/1 at BT 020622 received 2 rounds of sniper fire from BT 020611 and returned it with small arms and 60mm mortars. Area was swept with negative results. At 1515H Echo Co while in process of conducting a sweep at BT 024616 received small arms fire from across the SONG THANH QUIT river at BT 028615 wounding 1 Marine. Artillery, 81mm mortars, and organic weapons were fired and the enemy's fire ceased. The area from which the fire came was not swept due to the river barrier. The med-evac was completed without further incident and Echo continued the sweep. At 1530H the US ARMY psychological Warfare Team broadcasting from the H/3 CP at BT 045557 provoked approximately 10 rounds of small arms fire from across the SONG DIEN BINH river to the west. Fire was returned by 60mm mortars and 106RR's and the sniper fire ceased. Area not swept due to the river barrier. At 2000H a 10-year old VN boy approached the ANDERSON TRAIL road security patrol at BT 032643 with the information that he had seen about 20 VC in grey uniforms with rifles digging in the vicinity BT 031640. The boy was questioned and E/1 patrol with scout dog team was diverted to sweep the suspected VC position. The sweep had negative results. At 2045H while H/3 at BT 046558 was showing psychological Warfare and American movies to the villagers they received 7 rounds of sniper fire from across the SONG DIEN BINH river at BT 045549. H/3 returned fire and enemy's fire ceased. Later as the broadcasting continued, clacking bamboo sticks, beating drums, and shouting voices were heard coming from the south of the SONG DIEN BINH river at BT 040550. An artillery mission was fired and had good effect on the target; 2 secondary explosions were noted. Briefly after the first fire mission ended the noises started again and artillery was called again on the same area. At 2350H Hotel CP heard an explosion at BT 040580 which was thought to be a M-26 grenade employed as a protective mine. When checked first light the grenade was found to be intact; investigation indicated the explosion was caused by an M-79 round which had been fired. There were 4 platoon search and destroy patrols; 7 platoon and 2 squad security patrols; 4 squad ambushes; 4 listening posts; and 4 observation posts during this period.

#### SYNOPSIS

29 Sept - At 0700H ANDERSON TRAIL road completed with negative contact. At 0935H F/1 PPB security patrol found an unoccupied grass hut at BT 054606 containing wire, lights, and 29 new BA-279 batteries. The material was picked up and area was searched with negative results. At 1020H F/1 patrol at BT 028621 moving on a trail through

heavy thickets had 5th men in column hit a trip wire on the side of the trail. This caused an instantaneous explosion which cleared the brush in the area for 12 to 15 meters in diameter. The next man in column, (15 meters away) caught some fragmentation and both were rendered first aid. At 1204H the Bn CP at BT 015627 and E/1 patrol at BT 025628 simultaneously came under small arms fire from BT 018625 in an apparent attempt to draw both into a fire fight. The patrol also received fire from the north at BT 024629. E/1 swept north as the remainder of Echo Company deployed from the CP to exploit the enemy contact. All sweeps had negative results; 22 people were forwarded to DIEN BAN District Headquarters for questioning. At 1540H H&S road security at BT 032642 received 8-10 rounds of small arms fire from BT 033640 and returned fire. The area was swept with negative results. At 2235H E/2 patrol at BT 038634 had a man trip a mine and 2 WIA's resulted. At 2236H E/2 received sniper fire from an unknown number of VC from the west, south and southwest approximately 300 meters away; small arms and 81mm mortars were returned. The ambush site was compromised due to the detonation and will be relocated. There were 6 platoon search and destroy patrols; 5 platoon security patrols; 4 platoon and 2 squad ambushes; 4 listening posts; and 4 observation posts during this period.

SYNOPSIS

30 Sept - At 0945H F/2/B in ambush position at BT 008 617 had 1 VC move into killing zone carrying a M-72 which detonated when hit. At 1330H G/1/B at BT 997642 reported seeing a VCS running away from their position. They fired small arms and apprehended him. At 1458H F/2 at BT 009616 located 4 punji traps and collected them. At 1800H F/2/C at BT 007616 was set in ambush position when 2 or 3 VC commenced firing with an automatic weapon and 2 probable semi-automatic weapons. Fire was immediately returned. Enemy broke contact and area swept with negative results. There were 7 platoon and 1 squad search and destroy patrols; 5 platoon and 2 squad security patrols; 2 platoon and 3 squad ambushes; 5 listening posts; and 3 observation posts during this period.

3:DZB:MGH over 3100 dtd 7 Sep 1966

1. In accordance with reference (a) Enclosure (1) is submitted.
2. This operation demonstrated the 2d Battalion's capability of shifting from a defensive posture to the offensive swiftly and efficiently. Initially the 2d Battalion was to provide blocking forces for an ARVN search and clear operation but after contacts were made on 2 September the operation evolved into a three (3) company reinforced search and destroy operation. This rapid reaction had a marked effect on VC units operating in that portion of our TAOR.
3. Significantly, the A/O and Marine Air Support contributed greatly to the success of this operation. During the operation Marine Air is credited with 36 VC KIA's. The ever present A/O took away the VC's capability of undetected movement. Additionally, the A/O was able to control fixed wing and artillery missions which materially increased the VC casualties ie 36 KBMA, 33 KBGF.

## 6. Supporting Forces

a. The major support in this operation was provided by 1st Bn, 11th Marines and elements of the 3rd MAW.

b. Artillery support played a major role in assisting the conduct of the ground operations and in exploiting targets of opportunity. The use of an airborne artillery FO in exploiting VC sightings in the vicinity of GS's AT 9959, AT 9958 and BT 0060 was particularly effective and accounted for a good percentage of the probable VC casualties. Throughout the operation, artillery was generally responsive and effective.

c. Helicopter support played a vital role in the resupply and movement of the ground troops. On 2 September the troop lift of Company G from the vic AT 998611 to the LZ in vicinity BT 005596 was late in execution. This delay fortunately was not vital and was caused by the initial late arrival of the helicopters and initial inability to communicate. Once the fixed wing aircraft, the TACA, and the helicopters were in communication the lift was executed. The inability of 3rd MAW to provide for the troop lift of Foxtrot Company on the morning of 3 September caused this portion of the operation to be delayed 24 hours.

d. Close air support throughout the operation was both effective and responsive. In all cases, it was controlled by a TACA.

## 7. Intelligence

a. Enemy. The estimated VC strength in the area of operations is 200 to 300.

(1) The majority of contact consisted of sniper fire from 4 to 5 VC with automatic weapons.

(c) 020911H. Elements of Golf Company waiting in LZ, vicinity AT 998611, received automatic weapons fire from vicinity AT 996608. Fire was returned with small arms and 81mm mortar mission was called. Enemy fire was suppressed.

(b) AT 020915H. Golf Company while at their helicopter pick up point (vic AT 998611), received heavy automatic weapons fire from vicinity AT 992609. Fire was returned with small arms, M-79 rounds and artillery. Contact was broken by the VC.

(c) 020920H. Golf Company landed vicinity BT 005596 via helicopter and upon landing received .30 Cal MG and small arms fire from vicinity BT 003597. An air strike was called and enemy fire was suppressed.

(d) 021000H. Golf Company swept hamlet vicinity BT 003597 and found a great deal of blood in the huts. As Golf Company moved into the hamlet, the AO on station observed a group of VC fleeing in a westerly direction. An air strike was called and there was excellent coverage of the target resulting in 5 KBA (probable).

(e) 021210H. AO observed approximately 15 VC in vicinity AT 992600 and an artillery mission was called. AO observed a direct hit on fleeing VC resulting in 9 KBA (probable).

(f) 021300H. AO observed a VC unit (vic AT 991585) fleeing in a southerly direction. An air strike was called, resulting in 10 KBA (probable).

(g) 021350H. AO observed a VC unit in the vicinity AT 993609. An air strike was called with AO observing good effect on the target, resulting in 6 KBA (probable).

(h) 021700H. Echo Company (BT 018604) observed 3 VC in vicinity BT 015609 and called 81mm mortar mission. Coverage of the target was excellent and the VC disappeared.

(i) 031030H. Golf Company (BT 005595) received 2 sniper rounds from vicinity BT 012595. Fire was returned with small arms and M-79 rounds. VC broke contact.

(j) 031910H. Golf Company located vicinity BT 004603 observed 5 VC vicinity BT 003600. The AO on station controlled an air strike on target with good coverage. Results were unknown due to darkness.

(k) 032030H. Golf Company (BT 003598) called an artillery mission in on 4 snipers vicinity BT 003602, and on 3 snipers vicinity BT 003604. There was excellent coverage of both targets and the sniping ceased.

(2) The VC withdrew on each occasion leaving small units with sniping and harassing missions. The VC are capable of massing company size units and defending an area of their own choice. These units can be reinforced by the Q-15 Company (operating in the vicinity of GS 0061) and one unidentified battalion (operating in GS 9859). Estimated VC losses during the operation were 57 KIA (probable).

~~SECRET~~

b. Terrain. The area of operations is characterized by flat delta land with numerous rice paddies.

8. Mission. To provide blocking forces for the 1st Bn, 51st ARVN Regt (-) and 39th ARVN Ranger Battalion and to conduct company size search and clear operations either unilaterally or in coordination with ARVN forces.

9. Concept of Operations. Initially 3 companies provide the blocking forces with one company in reserve. Company H provides block along north bank of SONG CAM LAN River from vicinity GS 0156 to GS 0455; Company G provides block on the west vicinity GS 0160; and Company E blocks on north bank SONG THANH QUIT River vicinity GS 0160 and GS 0261.

10. Execution

a. 2 September - At 1600H Operation H-149 changed to Operation TROY. At 1700H Echo Company at BT 015609 reported enemy movement at BT 018604; 81mm mortar mission was called resulting in 3 probable VC KBA's. At 1930H F/I with EOD support team was helo lifted into vicinity AT 991588 to search for dud 500 lb bombs. Received heavy automatic fire from south, west, and east and called extensive artillery prep fire prior to attempting insertion. One helo was shot down and burned; troops, EOD personnel and crew was extracted while aircraft on station provided air support. Burning helo was destroyed by satchel charge.

b. 3 September - At 1030H Golf Company received 2 sniper rounds from BT 012595 and returned fire with small arms and M-79 rounds; results were 1 U.S. WIA who was med-evaced. At 1340H AO observed 3 VC in village containing extensive fighting holes throughout. As artillery mission was called; VC took evasive action and move into tree line at AT 981589; they were wearing green and black clothes and carried web gear. Rounds had good coverage of target, but body count was impossible due to dense foliage. At 1500H Foxtrot Company at BT 024634, while conducting reconnaissance for Operation TROY, observed 3 VC with weapons approximately 300 meters from their position. The village was swept and 3 freshly dug trenches were discovered and destroyed; there was no further contact. At 1745H Golf Company at BT 003597 received sniper fire from BT 010598 and countered with small arms. No casualties resulted. At 1910H Golf Company located at BT 003600 observed 5 VC at BT 004603. AO on station controlled air strike consisting of 20mm cannon fire and 5" ZUNI rockets; no body count was possible due to darkness. H/I/A patrol at 1945H received sniper fire from northwest of their position (via AT 998553) and returned fire with small arms and 4-60mm mortar rounds; sniper fire ceased. Golf CP at BT 003598 received 15 rounds of sniper fire into their perimeter at 2030H; a fire mission was called on sniper positions at BT 002602 and BT 003604. There was excellent

coverage of target and sniping ceased. At 2145H Echo Company received 60-75 rounds automatic fire from vicinity BT 020613 and returned fire with 19 rounds of 60mm mortar and 5 M-79 rounds were fired. Results were unknown.

d. 4 September - At 0930H Golf Company received sniper fire from AT 993593 and air strikes were called using 20mm cannon, napalm, and bombs against enemy positions. Although good coverage of target was noted, results were not known. Smoke was seen, however, coming from opposite side of the bank on which bombs were dropped indicating a tunnel network; Golf Company searched area with negative results. There was one marine injured slightly. At 1600H H/1 patrol at AT 995580 received sniper fire from AT 995580; it was returned with M-79 and small arms; troops were unable to sweep area due to H/1 remaining in position as ordered. At 1700H H/1 at AT 992577 took sniper fire from VC in hut at AT 998582 and ONTOS returned 106RR fire at sniper's location; sweep of position was out short by Golf Company's 81mm mortar mission on same target controlled by AO. Results were 3 probable VC KIA's. At 1800H Golf Company CP, while awaiting helo lift, received sniper fire from AT 985582; gunships made runs along with fire support from ground troops. Fixed wing made 20mm cannon runs and dropped napalm. Upon completion of air strikes, artillery mission called; results were 3 U.S. WIA's; 2 minor and 1 serious with stomach wound; 1 heat casualty was also evacuated. At 1830H Operation TROY terminated.

## 11. Results

### a. Friendly Personnel and Equipment

(1) The personnel strength of the participating units during the operation was as follows: 20 Officer, 744 Enlisted USMC; 2 Officer - 50 Enlisted USN.

(2) Friendly casualties: 18 WIA.

(3) Discipline, Law and Order: No problems.

(4) Morale: Considered above normal because of the higher VC casualty rate.

## 12. Administrative Matters

a. Logistics. There were no logistical problems encountered during the operation. Resupply was accomplished by both helicopter and vehicular means. Med-evacs were removed and sent to either Battalion Aid Station or "C" Company, 3rd Med Bn by helicopter.

### b. Medical

~~SECRET~~

- (1) Battle casualties - 0 KIA & 18 WIA.
- (2) Non Battle casualties - 2.
- (3) Special problems. None.

c. Communications. No problems encountered.

13. Special Equipment and Techniques. None employed.

14. Commander's Analysis. This operation confirmed heavy VC infiltration in the general areas GS's 9958, 9959, 9960, 0059, 0060, 0260, 0361 and 0261. While both of these general areas are populated to one degree or another, the populace is definitely VC orientated. Military age males are not in evidence; one old man and a few women and children occupy the hamlets during the day. Their apparent mission is to provide early warning of the approach of government troops and to deter further destruction of the hamlets. The military age men are hiding in well-concealed caves and tunnels.

15. Recommendations

a. The enemy forces moving through or harboring in these areas have not shown any willingness to stand and fight marine units. When marine patrols approach the area, the enemy harasses by long range sniper fire and deters vigorous pursuit by emplacing mines and in this manner he is able to evade solid contact. The experience of 2 Sep 66 when G Company executed the helicopter landing and assault of the hamlet flushing the VC into a hasty retreat was a fine example of how to kill VC in this environment. Although the VC again showed no inclination to really stand and fight and again commenced his usual "fade into the distant tree line", the combination of the sudden entry of marine forces and the all important OE on station made the difference. The VC no longer enjoyed the relative immunity normally afforded him when pursued by ground forces alone. Air was able to keep the VC under surveillance and by proper use of artillery and fixed wing kept the enemy in retreat inflicting heavy casualties along the way.

b. An occasional, well-planned operation of this type with all of the necessary assets and based on timely intelligence will do far more to damage the VC in this environment than regular patrolling and is a better utilization of Marine forces.

Air Officer Comment:

TROY

Para 6, CO, 2/1

Air support was provided by First, not 3<sup>rd</sup> MAW.

Subpara 2, last sentence, left referred to was  
of EOD & security force with mission search & destroy  
2 reported 500<sup>th</sup> bombs. Attempt to perform on 2 Sep  
aborted when helo (CH-46) shot down on LZ. Resched  
for morning of 3 Sep included Wing requirement for  
UH1E (Gun) escort. Guns not available until finished  
our Ruff Rider requirement approx 1230. 1<sup>st</sup> Mor  
cancelled alt. at 1150. "Inability" of Wing thus due to  
additional requirements for hot LZ and conflict of priorities  
& available assets.

used

## Opns Comments

This is essentially a straight forward, chronological narrative of the operations. There are no significant omissions.

Do not cover with para. 15 b. recommendations. Regular patrolling in this environment is an absolute requirement. A combination of the two (a "well planned operation" and regular patrolling) are necessary. Failure to patrol regularly provides the VC with a freedom of movement, and therefore constant access to the populace that we cannot afford.

The outstanding success of A.O. infantry - arty - CAS is nothing new. The problem has been providing the front end on the chain - the A.O. - remains. It is difficult to estimate how much the efficiency of infantry in this environment is increased by having an A.O. on station, but the increase is certainly significant. This leads to a conclusion that we all are well aware of - we need much more A.O. support than can be furnished from present assets.

Jenkins

HLZ	COORD	SIZE (FEET)	SHAPE	DESCRIPTION
1	centered YC 92833	300x310		HLZ is an abandoned crop area centered 600' from westernmost point of main compound; surrounded by brush and shrubs; surface relief is irregular and covered with low grass and low brush. A bamboo fence extends across the west end.  Ammo dropped south of the camp is surrounded by brush five to eight feet tall; located 480 feet from the center of HLZ #1.

2	centered YC 96831	150x1230		HLZ is the old landing strip on south-east side of compound, oriented southeast to northwest. Surface appears to be overgrown with low scrub brush and grass.
---	----------------------	----------	--	---

3	centered YC 98834	200x3600		HLZ is the main runway plus overrun and cleared area paralleling the strip; the runway is constructed with pierced steel planking (PSP). There are two large craters near the center, and six smaller craters throughout the length of the runway. The bomb blast has bent the PSP away from the craters in a banana peel effect.

### 1. SITUATION

a. Enemy Forces. Annex B (Intelligence).

b. Friendly Forces.

- (1) 3rd Bn, 1st Marines provides one company for reserve.
- (2) General Support: 12th Marines.
- (3) Direct Support: 1st Bn, 11th Marines.

2. MISSION. To conduct a search and destroy operation in order to provide a screen in assigned area thereby decreasing Viet Cong pressure on local populace during the national election period.

### 3. EXECUTION

a. Concept. Due to the fact that this is a new area of operation and that this operation is being conducted in conjunction with national elections, a great deal of liaison with local government officials is anticipated. Prior to movement into the operation, the 707th RF Company will be contacted for intelligence and possible routes of movement. A Command Group and two reinforced companies will conduct a search and destroy operation in assigned area. Contact will be effected with TRAN TRUC, District Chief of DUY XUYEN, 324th RF Company and 368th RF Company.

Time Zone: H

I. Summary of Enemy Situation

a. General. During August and early September there was indication of enemy movement throughout the area. Aerial photographs and Reconnaissance indicates that the northern section is well fortified with entrenchments and automatic weapon positions.

b. Enemy Dispositions

(1) There has been no NVA unit movement in the area south of 2/1 TAOR.

(a) The 70th MF Bn has recently been reported operating in the area of BT 0947 with a strength of 420 men.

(b) V-26 HF Co with a strength of 100 men has been reported in the vicinity of BT 0053.

(c) # 4 MF Co with a strength of 150 men has been reported operating in the vicinity of BT 0454.

(d) C47 Company of the 105th Bn and Q-13B CF Company with a strength of 200 men located at BT 0947.

(e) V-27 with a strength of 100 reported to be operating in the vicinity of BT 0454.

(f) The DIEN BAN LF Company with a strength of 100 men is reported operating vicinity BT 032552.

(g) The DUY XUYEN LF Company with a strength of 100 men is reported operating in the vicinity of BT 012521.

2. Essential Elements of Information

- a. Determine the strength, locations, identification, composition, organization and disposition of VC Main Force and para-military forces presently operating south of the 2/1 TAOR in QUANG NAM Province.
- b. Determine the location of established infiltration routes of VC units infiltrating into the 2/1 TAOR.
- c. Determine location, extent and type of logistics support bases.
- d. Determine whether VC units will defend positions presently occupied. If so, to what extent, with what type unit, and in what strength.
- e. Determine what the attack capability of VC units will be. In what strength, from which direction, with what type units.
- f. Determine the type(s) and location of defenses the VC will employ in the area.
- g. Determine the locations of helicopter landing sites.
- h. Determine the location of any trenches, tunnels, and fortifications.

### 3. Reconnaissance and Observation Units

#### a. Orders to subordinate units

- (1) Report as obtained, information answering the Essential Elements of Information.
- (2) The SPOT REPORT Method of reporting will be utilized.

#### b. Request to higher, adjacent, and supporting units

- (1) 1st Marines
  - (a) Provide current enemy order of battle.
  - (b) Provide aerial photographs in support of operation.
  - (c) Provide latest weather data.

### 4. Measures for Handling Prisoners, Captured Documents, and Captured Material:

Reference (b) applies.

~~SECRET~~

5. Maps, Charts, and Photographs: Reference (a) is the tactical map for this operation.
6. Counterintelligence. Reference (b) applies.

Encl: (1) Commanding Officer, 2d Battalion, 1st Marines After Action Report  
3/OLLshln over 3100 of 15 September 1966

1. In accordance with reference (a) Enclosure (1) and the following comments are submitted:

a. The Commander's comments and recommendations are concurred in by this command.

b. The success attained in Operation CANNON can be attributed to the close cooperation between Marine ground and air elements. This cooperation was amply demonstrated on 9 September when the ground units flushed a large VC force and the aerial observed directed a fixed wing strike on the fleeing VC. This strike resulted in 10 KIA (confirmed) and 10 KIA (probable). It is strongly recommended that the Marine AO capability be expanded, so AO support can be made more readily available to infantry units.

c. If employed properly, the stay behind ambush can produce noteworthy results. In addition to an ambush force, artillery concentrations must be plotted in and around the vacated OP, and the ambush force must have the capability to direct these fires. Although no contacts were made during this operation, it is felt this tactic should be employed on future operations.

6. Supporting Forces

a. The major support in this operation was provided by 1st Bn, 11th Marines, 12th Marines and elements of the 1st MAW.

b. Artillery Support

(1) During the operation, "C" Battery, 1st Bn, 11th Marines displaced 2 platoons to DIEM BAN to provide direct support, and the 11th and 12th Marines were in general support. During the entire operation "C" Battery demonstrated a high level of proficiency and professionalism by placing rounds on the target quickly and accurately.

(2) Direct support batteries fired 507 rounds on 33 observed mission, 588 rounds on prep fires and 276 rounds on 43 H&I targets.

(3) Other supporting batteries placed 110 rounds on observed targets and H&I's.

(4) An organic section of 81mm mortars fired 56 rounds on 4 observed missions, 200 rounds for prep fires, and 563 rounds on H&I targets.

c. Air Support

(1) Helicopter support was effectively used for resupply each day and no problems were encountered during resupply. Helicopters were also used extensively for medical and VCS evacuations. No helicopters were damaged by enemy fire during the operation. On 12 Sept M/C-16 provided 8 UH-34's for a total extraction of 2nd Battalion, 1st Marines elements. This extraction was held up 45 minutes by the late arrival of escort aircraft from CMU LAI.

(2) Air observation was used extensively each day with a UH-1E strike 10 Sept resulting in 1 KBA. A USAF OE controlled several airstrikes on 9 Sept resulting in 11 KBA (confirmed) and 10 KBA (probable), and the scattering of approximately 50 VC. These VC were moving west after breaking contact with our ground forces and only could be spotted by an AO.

(3) Fixed wing support by 1st MAW was late in arriving on 9 Sept for a river crossing prep. When it did arrive, the fixed wing was used for preps of VC strongholds in our line of sweep. One prep was controlled by an FAC with Fortrot Company, all other fixed wing support was controlled by a TACA.

UNCLASSIFIED

7. Intelligence.

a. Enemy. The estimated VC strength in the area of operations varies from 200 to 500.

(1) The majority of the contact in the area of operations consisted of sniper fire from small groups of VC armed with carbines.

(a) 071513H. Battalion CP received approximately 3 rounds of sniper fire from coordinates BT 053512. No fire returned, 1 friendly KIA.

(b) 071830H. CP group received 1 round of sniper fire from BT 053513. Returned fire with 3 rounds 60mm mortars. Enemy broke contact.

(c) 081135H. F Company at coordinates BT 032523 received 3 sniper rounds from unknown coordinates. 5 VCS were captured after they were seen helping 2 men into a tunnel. Smoke thrown into tunnel with negative results. VCS forwarded to district with PF forces.

(d) 081400H. Echo Company point at coordinates BT 029522 received approximately 4 rounds of sniper fire from west of position. Fire was returned in the snipers general direction with negative results. 1 friendly WIA, and one man suffered a sprained ankle.

(e) 081645H. Echo Company received heavy volume of sniper fire and automatic weapons fire from coordinates BT 030532. Returned fire with small arms, automatic weapons, 60mm mortars, 3.5" rockets, M-79 and artillery. 1 enemy KIA.

(f) 082300H. Echo Company observed movement in the vicinity of coordinates BT 028526 and shortly thereafter received 1 incoming grenade. Fire was returned with 60mm mortars and movement ceased.

(g) 090825H. Echo Company observed 4 VC vicinity BT 020533. VC taken under fire, broke contact and fled. Negative results.

(h) 091100H. Echo Company and Foxtrot Company received heavy small arms and automatic weapons fire from coordinates BT 018549 and BT 028544. Returned fire with small arms, M-79's, automatic weapons, 81mm mortars, 60mm mortars, 3.5" rockets, and intensive artillery missions and air strikes with rockets, bombs, and napalm. VC units broke contact and fled to the west and north. Friendly casualties: 1 DOW, 6 WIA, 3 heat and 1 with injured knee. VC casualties unknown at that time.

(i) 091222Z. VC flushed from vicinity BT 007547. Air strikes of napalm and rockets were guided by 03 on station. 11 VC KIA (confirmed) and 10 VC KIA (probable).

(j) 0914 03Z. Echo company found 1 VC body vicinity BT 019548 and an extensive trench line network with comm wire. Trench line was spotted with much fresh blood.

(k) 091400H. Foxtrot company found 1 VC body vicinity BT 025549.

(l) 091600H. 14 VCS, picked up in sweep after fire fights, were forwarded to District Headquarters.

(m) 100935H. Echo company spotted 7 VC dressed in khaki uniforms fleeing from BT 021543. Taken under fire, results were: 1 VC KIA, 1 VC wounded and 3 VCS med-evaced. 1 friendly KIA.

(n) 101307H. Echo company captured 2 VCS in sweep of village BT 029543. VCS were forwarded to District Headquarters.

(o) 101745H. Echo company patrol spotted 1 VC fleeing area vicinity LT 060550. VC taken under fire with M-79. Results: 1 VC KIA. Sweep of area turned up 2 VCS who were forwarded to District Headquarters.

(p) 111015H. Echo company received automatic weapons, and small arms fire from estimated VC squad vicinity BT 068542. Returned fire with small arms and 60mm mortars with negative results. Sweep of area yielded 2 VCS who were sent to District Headquarters.

(q) 111500Z. Echo-1 patrol spotted 1 VC fleeing area vicinity BT 067547. Search of area revealed 2 female VCS who were sent to District Headquarters.

(2) Intelligence Information Received by Interrogation.

(a) Information received from the VCS interrogated, tends to verify earlier information as to strict control of the area by VC. VC propaganda teams had told the young men and women to leave the villages when the Marines were in the area and the old people were to stay to guard their houses and property.

(b) The VC withdrew on each occasion of contact and left small groups of snipers behind to harass and delay us. The main group then pulled out in a circular movement to their rear and then west.

(c) The VC are able to mass at least a company size unit and are able to defend any area of their choice. These units can be reinforced by the Q-15 Company (BT 0058) and the V-26 (BT 0053). The hamlets were all extensively fortified with trenches and bunkers as well as booby traps and possible phone communication.

(d) The area is characterized by flat delta land of numerous rice paddies with thick bamboo strands around the hamlets. There are also fields of sugar cane and tall grass which added to the difficult task of finding snipers.

(e) Estimated losses to VC are as follows:

- (1) 5 KIA (confirmed)
- (2) 11 KBA (confirmed)
- (3) 10 KBA (probable)
- (4) 1 WIA
- (5) 30 VCS were sent to District for inter-

regation.

8. Mission. To conduct a search and destroy operation in order to provide a screen in the assigned area thereby decreasing Viet Cong pressure on local populace during the national election period.

9. Concept of Operations. A command group and two reinforced rifle companies will conduct a search and destroy operation in the area bounded by BT 010558, BT 093517, and BT 010500, and BT 082548.

#### 10. Execution

##### a. General

(1) At 071200H a command group with two reinforced rifle companies traveled via motor convoy on Route #1 south of the SONG DIEN BINH and moved west off of Route #1 on a road approximately 3000 meters south of the SONG DIEN BINH. The convoy moved about 4000 meters west along the road and then dismounted and moved into Objective "A" near the hamlet of CHIEM SON DONG (4), after making liaison with local officials. The next morning the unit moved towards Objective "B", about 2500 meters to the northwest, meeting sporadic sniping along the way. Upon reaching Objective "B" a great deal of fire was received from across the SONG CHIEM SON during a helicopter resupply mission. The next morning after extensive artillery and air preparation all units crossed the SONG CHIEM SON and moved north towards Objective "C". About 1500 meters north of the crossing point, the lead units met with heavy automatic fire from the north and west. Air, artillery, 60mm, 81mm and automatic fire was used to suppress the enemy fire. Area was swept and a night time position was established about 1000 meters east of the contact area. Movement east to Objective "D" commenced the next morning and trailing elements of Echo Company brought fire on an enemy unit to the rear of the column. Objective "D", 2500 meters to the east, was secured in the afternoon and movement south to Objective "E" commenced the next morning. Lead elements of Echo Company tripped and neutralized a VC ambush about 1500 meters south of Objective "D". Objective "E" on the north bank of the SONG CHIEM SON was reached at approximately 111100H. The next morning at 1000H all units were extracted by helicopter back to the Battalion CP.

b. 7 September - At 1200H Operation CANNON commenced. A light command group and Echo Company (Rein) and Foxtrot Company (Rein) departed the Bn CP by motorized convoy, enroute to Objective "A" in the vicinity of BT 057515. At 1325H, near the bridge located at BT 063512, on the advice of army advisors in that area 2/1 (-) elements dismounted and proceeded to Objective "A" on foot with Echo Company as lead element, the Command Group following, and Foxtrot Company providing rear security. After arriving at Objective "A", and after talking with local officials and PF forces the CP was established at BT 057514. At 1513H 3 sniper rounds were fired from unknown location causing 1 friendly MIA. At 1845H 2 sniper rounds were fired from the vicinity of BT 053515. 3-60mm mortar rounds were fired in return and sniping ceased. At 2225H- a squad size patrol working with PF's in hamlet at BT 054511 mistook a PF for a VC when he jumped from bushes along a trail, and the PF was mortally wounded. Body was given to PF officials with an explanation of deep regret for incident.

c. 8 September - At 0730H units commenced movement to Objective "B" with 7 PF's with each rifle company. At 1135H Foxtrot Company's lead unit in the vicinity of BT 032523 received 3 sniper rounds from unknown position. At 1140H Foxtrot lead unit apprehended 5 VCS who had just helped 2 men into a cave at BT 032522. Smoke grenades were thrown into the cave with negative results and the 5 VCS were returned to District Headquarters for interrogation. At 1400H Echo Company's lead unit in the vicinity of BT 029522 received 45 rounds of small arms fire from an unknown location to the west, causing 1 friendly MIA and one man suffered a sprained ankle. Both were evacuated. Small arms were returned in sniper's general direction and area was searched with negative results. At 1445H Echo Company in the vicinity of BT 029596 received heavy small arms fire from the vicinity of BT 029532. Fire was returned with artillery, 60mm mortars, machineguns and small arms. Enemy fire ceased. At 1645H during helicopter resupply at Objective "B", in the vicinity of BT 028526, heavy automatic and small arms fire was directed at the CP and helicopters from across the SONG CHIEP SON at BT 030532. Artillery, small arms, automatic weapons, M-79's, and 60mm mortars were fired in return resulting in one confirmed VC KIA. At 2300H Echo Company perimeter in the vicinity of BT 028526 received one grenade and observed movement in front of the lines. 4-60mm mortar rounds were fired and movement ceased. Area was checked at first light with negative results.

d. 9 September - At 0730H after an intensive 10 minute artillery prep, Foxtrot Company commenced movement across the SONG DIEN BINH, conducting a reconnaissance by fire as they approached the northern shore. The Command Group and Echo Company followed after the river bank was secure. The movement was made with no enemy contact and no major problems. At 0825H Echo Company's lead unit observed 4 VC at BT 020534. VC were taken under fire and fled. At 1100H the lead element of Echo Company at BT 019545 and the lead element of Foxtrot Company BT 026545 received heavy automatic fire from the vicinity of BT 018549 and BT 028544. Artillery, automatic fire, 60mm and 81mm mortar fire, and air strikes were used to return the enemy fire. OE on station observed approximately 50 VC fleeing to the west after the artillery mission. Air and artillery missions were called on fleeing VC in the vicinity BT 010546. OE observed 11 VC KIA confirmed and 10 VC WIA probable after artillery and air strikes in that area. Echo Company sweeping hamlet at BT 019549 discovered 1 VC WIA and apprehended 12 VCS. Also a great deal of blood was found in the trenchlines. Two huts used as fortified position in enemy's position were destroyed. Foxtrot Company upon sweeping enemy position discovered 2 VCS, 1 VC KIA, fresh blood trails, and 1 CMI CHOI grenade. 2 packs with many documents were returned to Battalion Rear. The grenade was destroyed and all VCS were evacuated to Battalion rear. From this 4-hour contact there resulted 13 VC confirmed KIA, 10 VC probable KIA, 14 VCS apprehended, 1 friendly DOW, 6 friendly WIA, 1-injured, 3 heat casualties. All were evacuated.

e. 10 September - At 0945H Echo Company in the vicinity of BT 035548 observed approximately 7 VC at BT 030546 and took them under fire with small arms, 60mm mortars, artillery, and UH-1E gunships controlled by OE ran strafing missions. Echo Company swept area and discovered 1 VC WIA, 5 VCS and a great many blood trails. OE on station observed 1 VC KIA in same area and also observed a group of VC fleeing westerly in the vicinity of BT 025545. VC were taken under fire with artillery and UH-1E gunships, with excellent target coverage as the VC moved into houses at that location. At 1745H 1st Platoon, Echo Company in the vicinity of BT 062550 observed 1 VC fleeing in the vicinity of BT 060550. He was taken under fire and killed. Two VCS were also apprehended in that area and evacuated the next morning. These actions resulted in 2 VC KIA, 1 VC WIA, 7 VCS apprehended, 1 Friendly WIA with broken leg.

f. 11 September - At 1015H Echo Company in the vicinity of BT 065545 received automatic and small arms fire from an estimated VC squad in the vicinity of BT 068542. Fire was returned with 60mm mortars, small arms and artillery. Echo Company swept enemy area and apprehended 2 VCS who were evacuated to District Headquarters. One house burning due to artillery mission produced a small secondary explosion. At 1500H 1st Platoon, Echo Company on patrol in the vicinity of BT 067547 observed a suspicious male fleeing from patrol. Patrol chased male, but could not apprehend him. However, 2 female VCS in house man emerged from, were appre-

hended and evacuated to District Headquarters. At 2045H Echo Company on CP perimeter at BT 068533 observed one VC 150 meters from perimeter and fired 3-60mm mortar rounds. 1 short round caused one minor friendly WIA.

g. 12 September - Echo Company, Command Group, and Foxrot Company were extracted by helo from BT 068533 in that order. Extraction commenced at 1000H and ended at 1215H. Operation CANNON also terminated at 1215H.

## 11. Results

### a. Friendly Personnel and Equipment

(1) The personnel strength of participating units during the operation was as follows: 18 Marine Officers; 1 Naval Officer; 285 Marine Enlisted; 7 Naval Enlisted.

#### (2) Friendly Casualties

KIA - 1 Enlisted Marine

DOW - 1 Enlisted Marine

WIA - 9 Enlisted Marines (Evacuated)

1 Marine Officer (Evacuated)

1 Naval Enlisted (Evacuated)

6 Marine Enlisted (Non-evacuated)

Non-battle - 15 Enlisted (Evacuated)

(3) Discipline Law and Order: No problems.

(4) Morale: Above Normal.

## 12. Administrative Matters

a. Logistics - No logistical problems were encountered during the operation. Troops were embarked by vehicular convoy. All resupply and medical evacuations were conducted by helicopter.

### b. Medical

(1) Battle Casualties - 1 KIA (Evacuated)

1 DOW (Evacuated)

11 WIA (Evacuated)

6 WIA (Non-evacuated)

(2) Non-Battle casualties - 15 (Evacuated)

(3) Special problems - There were no special problems - encountered during the operation. There were only 4 heat casualties despite the heat, the distance traveled and the fact that flak jackets were worn by all hands.

c. Communications

(1) Radio. Three nets were maintained by the command group. These were Battalion Tactical, Helicopter Direction #4 and Tactical Air Direction. HD # 4, an FM net, was used for tactical air request. A relay site was located one half the distance from the Battalion CP to the center of the search circle. While on the move the command group found it impossible to maintain communications with the Battalion CP without using the relay station. The terrain in the search area was roughly level and marshy. The weather during the operation was hot and humid with considerable cloud coverage at times. While in a static situation at night, the command group erected an RC-292 antenna. With this antenna up, the command group had no difficulty in reaching the Battalion CP. Communications within the command group and companies were normal.

(2) Wire. No wire communications were used on this operation.

13. Special Equipment and Techniques. None employed.

14. Commanders Analysis. This operation disclosed that in the area between the SONG CHIEM SON and the SONG DIEM BINH, bounded by Grid Lines 01 and 07, every hamlet is a fortified position consisting of trenchline networks, fighting holes, communication wire in trenches in one instance, barbed wire and punji sticks. The hamlets were inhabited by a few old men, old women, and children. From intelligence obtained, and from analyzing contacts, all indications disclose main force VC units operating in this area, and the contact on 10 September was believed to be a 70 man VC main force company believed to be moving west in that vicinity at that time.

15. Recommendations.

a. In the vast majority of contacts on this operation the VC used their standard tactic of sniping and then breaking contact as unit neared their location. However when the VC stayed and fought for any amount of time, with the use of proper equipment they could be found and hurt. As a unit moves towards enemy positions in trenchlines or hamlets, it is imperative to have an OE on station to observe the VC when they break contact and flee. At this time with responsive air and artillery the OE can fix and direct devastating fire on the enemy flushed by the ground troops.

b. In a completely VC controlled and occupied area, such as the area between the SONG CHIEM SON and the SONG DIEN BINH extensive prep fires and reconnaissance by fire on anticipated trouble spots or routes of advance can facilitate the move, and reduce casualties.

c. Another recommended tactic that was discovered on this operation is the placing of troops in holes to remain behind, when the rest of unit leaves it's nighttime position. In almost all cases, the VC will move into a vacated CP area. With this unit remaining and hidden, it creates a very good ambush.

1. SITUATION.

- a. Enemy Forces. See current IntSums and PIR'S.
- b. Friendly Forces. See reference (a).

2. MISSION. To provide security for the Fall 1966 rice harvest and the storage facilities for the harvested rice.

3. EXECUTION.

a. Concept of Operation. Since the rice is ready for harvest at different times in the various villages, this is not a battalion-size operation, but rather a series of company operations geared to the specific village requirements. Therefore, the modus operandi of the companies varies.

b. All units in coordination with village chiefs and PF's conduct day patrols and night ambushes in area to provide security for rice harvest; be prepared to provide security for storage areas upon request.

c. Coordinating Instructions

- (1) All units check ID and special-passes of individuals involved in rice harvest. Sample passes have been provided under separate cover.
- (2) All units maintain close liaison with village chiefs.
- (3) Area of operations set forth in reference (a)

4. ADMINISTRATION-LOGISTICS. See reference (b).

1. SITUATION.

- a. Enemy Forces. See current IntSums.
- b. Friendly Forces. See reference (b).

2. MISSION. 39th ARVN Ranger Battalion conducts search and destroy operation astride Highway # 14 to allow civilians to return temporarily to their homes in order to collect their personal property.

3. EXECUTION.

a. Concept of Operation. Commencing at 200600H 39th ARVN Ranger Battalion moves west from DIEN BAN astride Rt # 14 on search and destroy operation in area from vicinity BT 013568 to vicinity AT 984584. One company 2/1 provides screening force along both sides of Highway # 14 from vicinity BT 042579 to vicinity BT 013568 after 39th Ranger Battalion has moved west to ensure that road remains open for civilian movement. It is anticipated that the civilians will leave the area before dark and return to their homes in the vicinity of Rt# 1.

b. Hotel Company.

- (1) Provide screening force both to north and south of Highway # 14 commencing 200700H.
- (2) Key westward movement of screening forces to the progress of 39th Ranger Battalion.

SECRET

2. MISSION. To provide continual security around the battalion command post and to defend the command post in the event of an attack.

3. EXECUTION.

a. Concept of Operation.

- (1) The battalion perimeter will be divided into four sectors. Running clockwise from north, these sectors will be designated A, B, C, D. See Annex A. (Organization of H&S Company).
- (2) Units of this battalion will be prepared to react to three conditions: situation normal, attack imminent, attack in progress.
- (3) If available, one rifle company will be utilized as a counter attack force.

b. Situation Normal.

- (1) H&S Company provide continual surveillance of the area immediately surrounding the CP during hours of daylight.
- (2) H&S Company reinforced with one rifle platoon provide the night defense of the CP. A minimum of 60 men is essential for this purpose.

c. Attack Imminent.

- (1) H&S Company be prepared to defend the battalion CP in the event that the rifle companies are not present.
- (2) Rifle companies, when present in the battalion area, be prepared to provide reinforced platoons for the defense of the CP on order. One platoon (rein) will be required in each sector.
- (3) 81mm mortar platoon lay on assigned barrages and be prepared to fire on call defensive concentrations. See Annex B (Artillery and 81mm Mortar Concentrations).

~~106RR~~ 106RR platoon be prepared to move to any sector of the perimeter on order.

~~SECRET~~

- (5) One rifle company, battalion reserve. Be prepared to counter attack on order. See Annex B (Counterattack Plan).

d. Attack in Progress.

- (1) H&S Company react immediately for the initial defense of the CP. See Annex B (Counterattack Plan).
- (2) Designated platoons from rifle companies move to assigned sectors.
- (3) Designated rifle company, battalion reserve. Be prepared to counterattack on order. See Annex B (Counterattack Plan).
- (4) 81mm mortar platoon lay on assigned barrages and be prepared to fire on call defensive concentrations. See Annex B (Counterattack Plan).

e. Coordinating instructions.

- (1) Rifle company assignment to be made by S-3 in the daily frag order.
- (2) Supporting units be prepared to assist in the defense of the CP on order.

4. ADMINISTRATION AND LOGISTICS.

a. Administration. See reference (c).

b. Logistics.

- (1) Battalion ordnance section provide resupply of ammunition on request.
- (2) In the event of imminent capture, be prepared to destroy all weapons and ammunition on order.
- (3) Battalion Aid Station send two corpsmen to each sector. Be prepared to handle casualties.

~~SECRET~~

5. COMMAND AND COMMUNICATIONS.

a. Command.

- (1) Control will be exercised from the H&S Company bunker.
- (2) H&S Company bunker will also be utilized as the alternate Battalion Operation Center.

b. Communications.

- (1) The alert signal in the event of an attack imminent or in progress will be a three minute sounding of a siren.
- (2) The alert will be sounded under the following conditions:
  - (a) When the H&S Company bunker is notified of an attack by one of the sectors.
  - (b) Upon command of the Headquarters Commandant.
  - (c) Upon command of the Battalion Operations Center.
- (3) The PRC-25 in the H&S bunker will come up on the Battalion Tactical Net.
- (4) The phone in the H&S Company office will be moved into the bunker and be used on the S-3 Hot Line.
- (5) The marine on watch in the H&S bunker will, upon hearing the alert sounded, conduct a radio and phone check to all sectors of the perimeter.

~~SECRET~~

- (6) The signal to fire the FPL will be a green star cluster in addition to notification by phone or radio.

1. SITUATION.

- a. Enemy Forces. See Operation Order 223-66,  
paragraph 1.a.
- b. Friendly Forces. See Operation Order 223-66,  
paragraph 1.b.

2. MISSION. Be prepared to defend the Battalion Command  
Post at anytime.

3. EXECUTION.

a. Concept of Operation.

- (1) In the event that the rifle companies are  
absent from the battalion area, H&S Company  
will defend the battalion perimeter.
  - (2) If an attack is in progress, H&S Company will  
react immediately for the defense of the  
Battalion CP.
- b. Upon being alerted, H&S Company will provide  
for the defense of the CP in the following  
manner:
- (1) Sector A. The Battalion Supply Officer  
will be responsible for the defense of this  
sector utilizing the battalion supply and  
S-4 sections.
  - (2) Sector B. The Battalion Motor Transport  
Officer will be responsible for defending  
this sector utilizing motor transport and  
S-1 personnel.
  - (3) Sector C. The Battalion S-5 will be  
responsible for the defense of this sector  
utilizing the S-5 section, cooks and messmen.

- (4) Sector D. The 81mm Mortar Platoon Commander will be responsible for the defense of this sector utilizing the H&S Company flame section, all personnel not absolutely required on the mortars and all personnel available from the supporting units billeted in the NW corner of the battalion area.

c. Coordinating instructions.

- (1) S-2 and S-3 sections under control of the Operations ~~Chief~~ provide security for the Battalion Operations Center.
- (2) Each section normally holding classified material have one man, designated by name, assigned to destroy all classified material on order.
- (3) H&S Company bunker be prepared to function as the Alternate Battalion Operation Center.

4. ADMINISTRATION AND LOGISTICS.

a. Administration. See Administration Plan 218-66.

- (1) Request ammunition resupply from the H&S Company bunker.
- (2) Motor Transport Officer dispatch two mechanical mules to H&S bunker to be used in the resupply of ammunition.
- (3) H&S Company Supply Sergeant be prepared to destroy all weapons and ordnance under control.

b. Battalion Aid Station send two corpsmen to each sector. Be prepared to handle casualties.

c. H&S bunker have red, green, and white star clusters available.

5. COMMAND AND COMMUNICATIONS.

a. Command. Control of the perimeter will be exercised from the H&S Company bunker.

~~SECRET~~

b. Communications.

- (1) Communications will be by wire and radio to the sectors.
- (2) H&S Company bunker maintain a Hot Line to the S-3.
- (3) The signal to fire the FPL will be a green star cluster.

1. SITUATION.

a. Enemy Forces.

- (1) During the month of August and early part of September, it is estimated that a total of about 100 ~~VC~~ guerrillas have been operating in the area of operations. The major activity has been constant sniper fire at patrols (regardless of size) in grid squares BT 0157 and BT 0158 to BT 0357 and BT 0358. The largest single group observed at one time has been about 15 VC. Tactics ranged from 1-3 man sniper details to a well-planned 180 degree ambush of 10-12 men with 3-4 automatic weapons which occurred at BT 02176, BT 029579, and BT 025581.
- (2) A series of old trench lines have been noted at BT 021576, BT 029579, and BT 025581. Spider traps have been found at BT 032590. VC use of the holes in graveyards at BT 023583 and the incidents of sniping at aircraft from graves slightly to the north indicate the VC may be living in the graveyards.
- (3) Whistles are being used as a signal for VC fire coordination. One long blast has gone on.

ally brought a burst of automatic weapons fire on the flanks of the patrol.

(4) The SONG VINH DINH is believed to be an infiltration route.

b. Friendly Forces.

(1) See reference (b).

(2) 39th ARVN Ranger Battalion to the west (vic BT 006576).

2. MISSION. 2/1(-) conducts search and destroy operation in southern sector of its TAOR.

3. EXECUTION.

a. Concept of Operation. Two companies abreast sweep west in zone from vicinity Highway #1 to SONG GO CA to search the area and kill or capture VC. One company follows in trace to provide screen to the rear, kill or capture VC who may have evaded the assault companies, and is prepared to move rapidly to exploit any major enemy contact.

b. Company H(-).

(1) From present CP conduct search and destroy operation in assigned zone.

(2) Upon reaching SONG GO CA be prepared on order to return to Company CP via Highway #14.

c. Company F.

(1) From IP vicinity BT 053595 conduct search and destroy operation in assigned zone.

(2) As decoptive measure move unit on D-Day to IP from position occupied at conclusion of normal GOLDEN FLEECE operations conducted on D-1.

(3) Upon reaching SONG GO CA be prepared to establish defensive position with Company E vicinity BT 020585 or on order to move south to Highway #14 for extraction by vehicle.

**d. Company E.**

(1) Depart Bn CP at H-Hour by motor convoy for IP vicinity BT 053595.

(2) From IP conduct search and destroy operation in trace of Companies H and F.

(3) Interval (both in distance and time) between assault companies and Company E will be sufficient to deceive enemy and accomplish the following:

(a) Kill or capture VC who may have evaded the assault companies by breaking contact or have secreted themselves to avoid contact.

(b) Screen the rear of the assault companies.

(4) Be prepared to move rapidly to exploit any major enemy contact.

(5) Upon reaching SONG CO CA be prepared to establish defensive position with Company F vicinity BT 020585 or on order to move south to Highway #14 for extraction by vehicle.

**e. H&S Company.**

(1) Provide designated attachments to rifle companies.

(2) Provide normal supporting arms, administrative, and logistics support from Bn CP.

**f. Coordinating instructions.**

(1) Area of operations, boundaries, and phase lines. See Annex A.

(2) H-Hour and D-Day to be announced. (Tentatively 250800H Sep 1966, but may be advanced as much as 48 hours).

(3) Use supporting arms to prop objectives and protect flanks.

- (4) A TACA and/or AO will be on station to assist in detection of enemy movement and adjustment of artillery and air strikes.
- (5) Report on reaching phase lines.
- (6) Assault companies will coordinate advances, but need not maintain physical contact.
- (7) Chart location of trenches, bunkers, and other fortifications for subsequent destroy operations.

4. ADMINISTRATION AND LOGISTICS. See reference (c).

5. COMMAND AND COMMUNICATIONS-ELECTRONICS.

a. Command.

- (1) Bn CP BF 017628.
- (2) Report locations on the hour.

b. Communication-Electronics.

- (1) See reference (d).
- (2) All units carry panels and smoke grenades; be prepared to mark enemy locations for TACA/AO.

6. Supporting Forces

a. Major support in this operation was provided by 1st Bn, 11th Marines and elements of the 1st MAW.

b. Artillery Support

(1) During Operation COFFEE "B" Battery, 1st Battalion, 11th Marines provided general support firing prep fires for the assault on suspected enemy positions. The battery fired 150 rounds HE, 4 rounds WP, 3 HC smoke on 13 missions.

(2) Organic 81mm mortars fired 198 rounds HE and 4 illumination on 10 missions.

c. Air Support

(1) During Operation COFFEE a FAC Team working with Foxtrot Company used a TACA and fixed wing aircraft continuously to prep assault company's routes and to make strikes on suspected enemy positions.

(2) As a result of well executed coordination and close liaison between the company commander, FAC Team, and artillery FO Team, maximum and efficient use of air as a supporting arm was accomplished with no loss of aircraft.

7. Intelligence.

a. Enemy. The estimated VC strength in the area of operation is 100.

(1) The majority of the contacts consisted of sniper fire from approximately 2 to 5 VC with small arms and automatic weapons.

(a) 200945H. Foxtrot Company moving at BT 047595 apprehended 1 VCS. Results of action 1 VCS.

(b) 241215H, Foxtrot Company moving at BT 035593 received 4 rounds of small arms fire from BT 031593. Area was swept with negative results.

(c) 241230H. Foxtrot Company moving at BT 033592 received 10 rounds of small arms fire from BT 033600. An artillery mission was called on the enemy position. The area was not swept due to river barrier.

(d) 241345H. Foxtrot Company moving at BT 025593 found a bloody shirt and blood trails. Area was searched with negative results. 1 VC WIA.

(e) 241430H. Foxtrot Company moving at BT 025591 received small arms fire from BT 021591. An air strike was called with unknown results.

(f) 241635H. Echo Company moving at 022573 received small arms fire from BT 019583. Fire was returned with small arms, 10 rounds of 60mm mortar and an artillery mission was called. VC broke contact and Company continued mission.

(g) 241745. Echo Company moving at BT 038578 received heavy automatic weapons fire from BT 038580, from an estimated 5 VC. Fire was returned by Echo Company with small arms, and 60mm mortar. Hotel Company (vicinity BT 042579) fired with 81mm mortars and 106 RR's. Artillery fire was called on the enemy fire. Enemy firing ceased and Company continued mission. Results of the actions 5 VC KIA (probable).

(2) The VC have withdrawn on each occasion leaving small units with sniping and harassing missions. The VC are capable of massing company sized units and defending an area of their choice. These units can be reinforced by the Q-15 Company (operating in the vicinity of BT 065625). VC losses during the operation were: 5 VC KIA (probable) 1 VC WIA, 1 VCS.

a. Terrain. The area of operation is characterized by flat delta land with numerous rice paddies. Obstacles in the area are as follows: The SONG TAM GIAP, a slow moving river with a soft silty bottom; at RT 025593, there are a series of draws approximately 8 feet deep running north toward river; at BT 028590, a wall of wire and bamboo runs north to south along the trail; at RT 019577 there is a marshy area of waist-high water and grass shaped in an "S"; at BT 019574 there is a triple strand of wire running east to west.

8. Mission. To conduct a search and destroy operation in southern section of the TAOR.

9. Concept of Operation. Two companies abreast sweep west in zone from vicinity Highway #1 to SONG CO CA to search the area and kill or capture VC. One company follows in trace to provide screen to the rear, kill or capture VC who may have evaded the assault companies, and is prepared to move rapidly to exploit any major contact.

10. Execution.

a. General

(1) At 240800H a light command group with companies Echo and Fox (Reinforced) traveled via motor convoy on Route #1 south of the hamlet of QUANG LOC TAY (2). Company "H" moving in from the south joined with company F; the two companies abreast then swept toward SONG CO CA. The sweep was conducted with an intensive air and artillery preparation. Company "E" followed in trace accompanied by a U.S. Army Psychological Warfare unit and two scout dog teams to exploit the success of the assault companies. Sporadic rifle fire was received throughout the area of operations. Upon reaching SONG CO CA, the assault companies turned south toward Route #14, then east along Route #14 toward the entrucking point on Highway #1 near Hotel Company Cf. On the return route the heaviest small arms fire of the day was encountered. Fire was returned with small arms, 60 and 81mm mortars and artillery. One VC was seen to be hit and five probable kills are suspected.

b. 24 September - At 0800H Operation COFFEE commenced. A light command group, companies Echo and Foxtrot, and 2

sections of 81mm mortars departed the Bn CP by motorized convoy, enroute to IF on Highway #1 south of QUANG LOC TAY (2). Company H (-) moved from Co CP (BT 042579) and established contact with Company F on Highway #1, near BT 054595. The two companies, with Company E, Command Group, Psychological Warfare Unit, and scout dog teams following in trace, commenced movement westward. Aerial Observer on station swept the area of operations. After artillery had fired on suspected key targets, an air strike was called on BT 022578 resulting in a fire and a large secondary explosion. At 0945H (vic BT 047595) Forrest Company apprehended one male VCS. Continuing west they received sporadic sniper fire as they swept. At 1345H vicinity BT 025593 blood trails and a blood soaked shirt were found. At this time a psychological warfare team member became a heat casualty due to excess load being carried; he was med-evaced by helicopter. Turning southward toward Route #14, upon reaching the grid square BT 0158, Echo Company received sniper fire from BT 019583 at 1635H. Fire was returned by small arms, 60 and 81mm mortars, and artillery. Sniper fire ceased. At 1745H a heavy volume of automatic weapons fire was received by Echo Company from an estimated 5 VC in vicinity of BT 035584; fire was returned by Echo and Hotel Companies with small arms, 106's, 60 and 81mm mortars. An artillery mission was highly accurate, resulting in 5 possible VC KIA's. Both companies continued their mission. Operation COFFEE concluded at 1900H.

## 11. RESULTS

### a. Friendly Personnel and Equipment

(1) The personnel strength of participating units during the operation was as followed; 9 Marine Officers; 408 Marine Enlisted; 1 U.S. Army Officer; 1 U.S. Army Enlisted; 2 ARVN Rangers Enlisted.

### (2) Friendly Casualties

KIA - None

DOW - None

WIA - None

MBC - 1 Army Enlisted (Evacuated)

### (3) Discipline Law and Order

No problems

(4) Morale

Normal.

12. ADMINISTRATIVE MATTERS

a. Logistics - No logistical problems were encountered during the operation. Troops were deployed and returned by vehicular convoy. No resupply was required. Med-evac was conducted by helicopter.

b. Medical

(1) Battle Casualties - None

(2) Non-Battle Casualties - 1 (Evacuated).

(3) Special problems - There were no special problems encountered. One heat casualty was attributed to an exceptionally heavy load of psychological warfare equipment.

c. Communications - Normal.

13. SPECIAL EQUIPMENT AND TECHNIQUES

(1) A psychological warfare team, employed with Company E following in trace of the assault companies, was used to exploit their discoveries and contacts.

(2) Two scout dog teams were utilized behind the assault companies to locate hidden VC arms caches and personnel.

14. COMMANDER'S ANALYSIS. It is apparent from prior contacts that there are hard-core VC units in the operating area. However, they will fight only on their own terms. Due to the size of the friendly force, they did not chance contact and fled the area.

15. RECOMMENDATIONS. Although this particular operation did not develop any major contact, it did serve to disrupt enemy plans and drive him from harboring areas. It also demonstrated to the friendly local civilian population as well as the VC the strong Marine forces that can move into the area at anytime.

~~SECRET~~

It is considered appropriate to conduct similar operations on a random basis in this and other areas throughout the TAOR.

J. D. SPAULDING
